Version No. : R1.0
Edition Time: 2014.04

2

3. Install the microSDHC card to the microSDHC card slot.

4. Close the front cover gently back into place.

Connecting the Modem to Your PC

Via USB Connector

Install the device to your computer's USB port securely. The OS automatically detects and recognizes your modem and starts the installation wizard.

7

Getting to Know Your Device

Your device supports data and SMS services through the mobile phone network, enabling you to communicate anytime and anywhere.

The following figure is only for your reference. The actual product may be different.

1. microSDHC card slot
2. Reset button
3. (U)SIM card slot
4. USB connector
5. External antenna connector
6. Front cover
7. LED indicator
8. Modem cap

3

NOTE: If the system does not launch installation automatically, you can run the installation program by selecting **My Computer > airtel 3G**.

Via Wi-Fi

1. Power on your device.
2. Use your normal Wi-Fi application on the client to search the available wireless network.

8

NOTE:

- microSDHC™ logo is a trademark of SD-3C, LLC.
- Use the original external antenna if necessary.

Indicator

Indicator	Status	Description
3G	Red solid	Turned on and not registered.
	Green solid	Registered to 2G.
	Green blinking	Connected to 2G and data is being transferred.
	Blue solid	Registered to 3G.
Wi-Fi	Blue blinking	Connected to 3G and data is being transferred.
	Blue blinking	Wi-Fi is Active.
	Blue solid	WPS is Active.
	LED off	Wi-Fi is off.

4

NOTE: Please set the client to obtain an IP address automatically referring to the chapter "Configuring your PC", and then the client will get an IP address like "192.168.0.100".

3. Select the SSID of your device, and then click **Connect**.

9

Connection Scenario

Your device supports multi-clients for surfing on the Internet at the same time. The following figure is only for your reference.

TIP: With other accessories, such as mobile power and car power adapter, you will be able to supply power to your device and use it anywhere and anytime.

5

4. Input the password, and then click **Connect**.

NOTE:

You may need to enter the password for the Wi-Fi connection. You can view the label on your device to get the default password.

10

Installation Guide

Installing the (U)SIM Card and microSDHC Card

1. Open the front cover.

NOTE:

Do not open the front cover rudely. Failing to do so may cause damage to the front cover.

2. Install the (U)SIM card to the (U)SIM card slot.

IMPORTANT: Your device does not support the Micro/Nano SIM card or any other nonstandard SIM cards. To avoid damaging the device, do not use those cards or any card holders.

6

5. Wait a moment, and then the client will connect to your device successfully.

11

Login

1. Make sure the connection between your device and the client is correct.
2. Launch the Internet browser and enter <http://192.168.0.1> or <http://ufi.ztedevice.com> in the address bar.

NOTE: It is recommended that you use IE (7.0 or later), Firefox (15.0 or later), Opera (10.0 or later), Safari (4.0 or later), Google Chrome (10.0 or later).

3. The login page appears as follows. The following figure is only for your reference.

12

4. Select **Obtain an IP address automatically** and **Obtain DNS server address automatically**, and then click **Ok** to finish the configuration.

18

After successful login, you will see the figure as shown below.

13

Accessing the Internet

After the device is connected to your PC successfully, you can access the Internet in **Automatic** or **Manual** mode. The default mode is **Automatic**.

Warning and Notice

To the Owner

- If inadequately shielded, some electronic devices may be affected by the electromagnetic interference caused by the modem, such as the electronic system of vehicles. Consult the manufacturers of such devices before using the modem if necessary.
- Operating the modem may interfere with medical instruments such as hearing aids and pacemakers. Always keep the modem more than 20 centimeters away from such medical instruments when your modem is turned on. Turn the modem off if necessary. Consult a physician or the manufacturers of medical instruments before using the modem if necessary.
- Be aware of the usage limitation when using the modem at places such as oil warehouses or chemical factories, where there are explosive gases or explosive products being processed. Turn off the modem if necessary.

19

Mode	Operation
Automatic	Your device is connected to the Internet automatically, and you can surf on the Internet directly.
Manual	<ol style="list-style-type: none">1. Log in to the web GUI configuration page.2. Select Settings > Network Settings > Dial-up Settings > WAN Connection Mode > Manual, and then click Apply to confirm your configuration.3. Click Home and then click Connect to access the Internet.

NOTE:

To modify the parameters of your device, log in to the web GUI configuration page by visiting <http://192.168.0.1> or <http://ufi.ztedevice.com>. The default password is **admin**.

14

- Do not use electronic transmission devices in aircrafts, at petrol stations or in hospitals. Observe and obey all warning signs, and turn off the modem in these conditions.
- Do not touch the inner antenna area unless it is necessary. Otherwise the performance of the modem may be affected.
- Keep the modem out of the reach of little children. The modem may cause an injury if used as a toy.
- When the modem is operating, do not touch the metallic parts. Failing to do so may cause burns.

Using Your USB Modem

- Use original accessories or accessories that are authorized. Using any unauthorized accessories may affect the performance of the modem and violate the related national regulations about telecom terminals.
- Avoid using the modem near or inside metallic structures or establishments that can emit electromagnetic waves, because signal reception may be affected.

20

Configuring Your PC

Follow the following steps and figures for Windows XP to configure the Internet Protocol for your Wi-Fi connection.

1. Right-click **My Network Places**, and then select **Properties**.

15

- The modem is not waterproof. Keep the modem dry and store it in a shady and cool place.
- Do not use the modem immediately after a sudden temperature change. In such case, dew may be generated inside and outside the modem, so do not use it until it becomes dry.
- Handle the modem carefully. Do not drop, bend or strike it. Otherwise the modem may be damaged.
- Only qualified personnel can dismantle and repair the modem.
- An operating temperature between -10°C and +60°C and a humidity between 5% and 95% are recommended.

Limited Warranty

- This warranty does not apply to defects or errors in the product caused by:
 - i. Reasonable abrasion.
 - ii. End users' failure to follow ZTE's installation, operation or maintenance instructions or procedures.

21

2. Right-click **Wireless Network Connection**, and then select **Properties**.

16

- iii. End users' mishandling, misuse, negligence, or improper installation, disassembly, storage, servicing or operation of the product.
- iv. Modifications or repairs not provided by ZTE or a ZTE-certified individual.
- v. Power failures, surges, fire, flood, accidents, and actions of third parties or other events outside ZTE's reasonable control.
- vi. Usage of third-party products, or usage in conjunction with third-party products if such defects are due to the combined usage.
- vii. Any other cause beyond the range of normal usage intended for the product.

End users have no right to reject or return the product, or receive a refund for the product from ZTE under the above-mentioned situations.

- This warranty is end users' sole remedy and ZTE's sole liability for defective or nonconforming items, and is in lieu of all other warranties, expressed, implied or statutory, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, unless otherwise required under the mandatory provisions of the law.

22

3. Select **Internet Protocol (TCP/IP)**, and then click **Properties**.

17

Limitation of Liability

ZTE shall not be liable for any loss of profits or indirect, special, incidental or consequential damages resulting from or arising out of or in connection with using of this product, no matter whether or not ZTE had been advised, knew or should have known of the possibility of such damages, including, but not limited to lost profits, interruption of business, cost of capital, cost of substitute facilities or product, or any downtime cost.
