### Overview

### Before Getting Started

#### Installing the SIM Card, microSD Card

For more information, please read the user manual stored in the device.

First, install the SIM card, microSD memory card as described below.

Switch off your device before installing or replacing SIM card.

1. Remove the jack cover.
2. Insert your SIM card into the SIM slot.

**NOTE:** Do not remove or install the SIM card while the power cable is plugged.

Removing the SIM card when switch on leads to a reboot.

3. Insert your memory card into the memory card slot.

**NOTE:** microSD logo  is a trademark of the SD Card Association.

4. Press the cover gently back into place.

### Charging the Battery

The new battery is not fully charged. For the first time usage, you should charge the battery.

1. Connect the adapter to the charger jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charger jack.

2. Connect the charger to a standard AC wall outlet.
3. Disconnect the charger when the battery is fully charged.

### Powering On & Off

Make sure the SIM card is in your device and the battery is charged.

- To power on your device, hold the **Power Key**.
- To power off your device, hold the **Power Key** to get the phone options, select the Power off option, and then touch **OK**.

### Switching Your Tablet to Sleep Mode

Sleep Mode suspends your device to a low-power-consumption state while the display is off to save battery power. Your device also goes into Sleep Mode automatically when you leave it idle after a certain period of time.

To quickly turn the screen off and lock the keys, press the **Power Key**.

**NOTE:** In Sleep Mode, you will still be able to receive messages and calls.

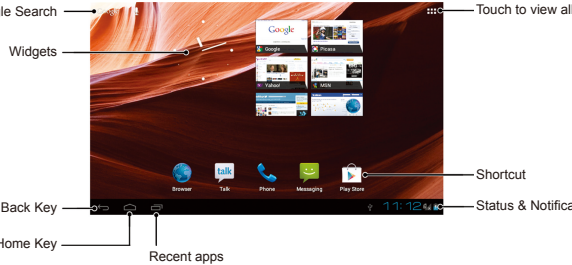

### Waking Up Your Tablet from Sleep Mode

1. Press the Power Key to activate your screen display.
2. Drag  to  to unlock the screen and keys. You can also drag  to  to open the camera and start taking photos immediately.

**NOTE:** If you have set an unlock pattern, PIN or password for your device, you'll need to draw the pattern or enter the PIN/password to unlock your screen.

### Getting to Know the Home Screen

The home screen is the starting point for your device's applications, functions, and menus. You can customize your home screen by adding application icons, shortcuts, folders, widgets, and more. Your home screen extends beyond the initial screen. Swipe the screen left or right to display additional screens.

- Home Key: Touch to return to the Home Screen from any application or screen.
- Recent apps: Touch to view the recent apps.
- Back Key: Touch to go to the previous screen.

### Extended Home Screens

Your home screen extends beyond the initial screen, providing more space to add icons, widgets, and more. Simply swipe left or right on the screen to see the extended Home Screens.

### Basic Functions

#### Make a Call

1. Touch the **Home Key** >  > .

2. In the dialer tab , enter the device number with the on-screen keypad. Touch  to delete wrong digits.

**NOTE:** As you enter digits, your device searches for contacts that match. If you see the number you want to dial, touch it to place the call immediately without entering the rest of the number.

3. Touch the Device icon  below the keypad to dial.

**TIP:** To make an international call, touch and hold the 0 key to enter the plus (+) symbol. Then enter the international prefix for the country, followed by the full device number.

## People

You can add contacts on your device and synchronize them with the contacts in your Google account or other accounts that support contact syncing.

To see your contacts, touch the **Home Key** >  > . From there, you can touch the tabs on the top of the screen to quickly switch to the contact **GROUPS** or **FAVORITES** contacts.

## Messages

You can use Messaging to exchange text messages (SMS). Touch the **Home Key** >  > **Messaging**, where you can create a new message, search for messages, or open an ongoing message thread.

## Email

Touch the **Home Key** >  > **Email**. Use it to read and send emails from services other than Gmail.

## Browser

Use Browser to view web pages and search for information. Touch the **Home Key** >  > **Browser** to start this function.

Browser also opens when you touch a web link - for example, in an email or a text message.

## Camera

You can take photos and record videos. Photos and videos are stored to the device's memory card or the device's internal storage.

You can copy them to your computer or access them in the **Gallery** app. Touch the **Home Key** >  > **Camera**, and touch  to switch to the camcorder from the camera screen.

## Gallery

Touch the **Home Key** >  > **Gallery** to view albums of your pictures and videos.

## Music

Touch the **Home Key** >  > **Music** to play audio files stored on your device. **Music** supports a wide variety of audio formats, so it can play music you purchase from online stores, music you copy from your CD collection, and so on.

## Video Player

Touch the **Home Key** >  > **Video Player** to view your video library.

## Sound Recorder

Sound Recorder enables you to record voice memos and listen to them whenever you like. Touch the **Home Key** >  > **Sound Recorder**.

## Settings

Touch the **Home Key** >  > **Settings**. The Settings app contains most of the tools for customizing and configuring your device.

## Product Safety Information

|   |  |   |  |
|---|--|---|--|
|  | Read the Safety Information section of this user guide         |  | Do not use while re-fuelling                       |
|  | Do not use hand-held while driving                             |  | This device may produce a bright or flashing light |
|  | For body-worn operation maintain a separation of 1.5cm         |  | Do not dispose of it in a fire                     |
|  | Small parts may cause a choking hazard                         |  | Avoid contact with anything magnetic               |
|  | This device may produce a loud sound                           |  | Avoid Extreme Temperatures                         |
|  | Keep away from pacemakers and other personal medical devices   |  | Avoid any contact with liquid, keep it dry         |
|  | Switch off when instructed in hospitals and medical facilities |  | Do not attempt to disassemble                      |

|   |  |   |   |
|---|--|---|---|
|    | Switch off when instructed in aircrafts and airports |    | Do not rely on this device for emergency communications |
|  | Switch off in explosive environments                 |  | Only use approved accessories                           |

## RF Exposure

Your device contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your device, the system handling your communication controls the power level at which your device transmits.

## Specific Absorption Rate (SAR)

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg. The highest SAR value for this device when tested was 1.202W/kg and complied with this limit. The highest SAR value reported to the CE for this device type was compliant with the limit at 8mm.

## Limiting exposure to radio frequency (RF) fields

For individuals concerned about limiting their exposure to RF fields, the World Health Organisation (WHO) provides the following advice:

Precautionary measures: Present scientific information does not indicate the need for any special precautions for the use of mobile devices. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using 'hands-free' devices to keep mobile devices away from the head and body. Further information on this subject can be obtained from the WHO home page <http://www.who.int/peh-emf> WHO Fact sheet 193: June 2000.

## Declaration of RoHS Compliance

To minimize the environmental impact and take more responsibility to the earth we live in, this document shall serve as formal declaration that the device manufactured by

ZTE CORPORATION is in compliance with the Directive 2002/95/EC of the European Parliament - RoHS (Restriction of Hazardous Substances) with respect to the following substances:

- |                                      |   |
|--------------------------------------|---|
| (1) Lead (Pb)                        | (2) Mercury (Hg)                            |
| (3) Cadmium (Cd)                     | (4) Hexavalent Chromium (Cr (VI))           |
| (5) Polybrominated biphenyls (PBB's) | (6) Polybrominated biphenyl ethers (PBDE's) |
- (Compliance is evidenced by written declaration from our suppliers, assuring that any potential trace contamination levels of the substances listed above are below the maximum level set by EU 2002/95/EC, or are exempt due to their application.)

The device manufactured by ZTE CORPORATION, meets the requirements of EU 2002/95/EC.

## Disposal of Your Old Appliance

- 
- When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2002/96/EC.
  - All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
  - The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.

For this product's recycling information based on WEEE directive, please send an e-mail to [weee@zte.com.cn](mailto:weee@zte.com.cn).

## EC DECLARATION OF CONFORMITY

It is hereby declared that the following designated product:

Product Type: Tablet  
Model No.: ZTE V70

**Complies with** the essential protection requirements of the Radio and Telecommunication Terminal Equipment Directive (EC Directive 1999/5/EC).

This declaration applies to all specimens manufactured identical to the samples submitted for testing/evaluation.

Assessment of compliance of the product with the requirements relating to the Radio and Telecommunication Terminal Equipment Directive (EC Directive 1999/5/EC) was performed by **American TCB** (Notified Body No.1588), based on the following standards:

|        |   |
|--------|---|
| Safety | EN 60950-1:2006/A11:2009  |
| EMC    | EN 301 489-1 V1.8.1; EN 301 489-3 V1.4.1;<br>EN 301 489-7 V1.3.1; EN 301 489-17 V2.1.1;<br>EN 301 489-24 V1.5.1 |
