For Your Safety

Product Safety Information

	Read the Safety Information section of this user guide on this page		Do not use while re-fuelling
	Do not use hand-held while driving		This device may produce a bright or flashing light
	Small parts may cause a choking hazard		Do not dispose of it in a fire
	This device may produce a loud sound		Avoid contact with magnetic media
	Keep away from pacemakers and other		Avoid Extreme Temperatures

	personal medical devices		
	Switch off when instructed in hospitals and medical facilities		Avoid any contact with liquid, keep it dry
	Switch off when instructed in aircrafts and airports		Do not attempt to disassemble
	Switch off in explosive environments		Do not rely on this device for emergency communications
			Only use approved accessories

RF Exposure

General Statement on RF Energy

Your mobile device contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your device, the system handling your call controls the power level at which your device transmits.

Specific Absorption Rate (SAR)

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 1.58 W/kg. As mobile

devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide.

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Body-worn Operation

Important safety information regarding radio frequency radiation (RF) exposure:

Failure to observe these instructions could result in your RF exposure exceeding the relevant guideline limits.

Limiting Exposure to Radio Frequency (RF) Fields

For individuals concerned about limiting their exposure to RF fields, the World Health Organization (WHO) provides the following advice:

Precautionary measures: Present scientific information does not indicate

the need for any special precautions for the use of mobile devices. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using 'hands-free' devices to keep mobile devices away from the head and body.

Further information on this subject can be obtained online from the WHO fact sheet N°193 at <http://www.who.int/mediacentre/factsheets/fs193/en/>

Regulatory Information

The following approvals and notices apply in specific regions as noted. Please find the Declaration of RoHS Compliance, and EC Declaration of Conformity in Appendix.

Distraction

Driving

Full attention must be given to driving at all times in order to reduce the

risk of an accident. Using a mobile device while driving (even with a hands free kit) can cause distraction and lead to an accident. You must comply with local laws and regulations restricting the use of wireless devices while driving.

Operating Machinery

Full attention must be given to operating the machinery in order to reduce the risk of an accident.

Product Handling

General Statement on Handling and Use

You alone are responsible for how you use your mobile device and any consequences of its use.

You must always switch off your mobile device wherever the use of a phone is prohibited. Use of your device is subject to safety measures designed to protect users and their environment.

- Always treat your device and its accessories with care and keep it in a clean and dust-free place.
- Do not expose your device or its accessories to open flames or lit tobacco products.
- Do not expose your device or its accessories to liquid, moisture or high humidity.
- Do not drop, throw or try to bend your device or its accessories.
- Do not use harsh chemicals, cleaning solvents, or aerosols to clean the device or its accessories.
- Do not paint your device or its accessories.
- Do not attempt to disassemble your device or its accessories, only authorized personnel should do so.
- Do not expose your device or its accessories to extreme temperatures, minimum - [5] and maximum + [50] degrees Celsius.
- Please check local regulations for disposal of electronic products.

- Do not carry your mobile device in your back pocket as it could break when you sit down.

Small Children

Do not leave your mobile device and its accessories within the reach of small children or allow them to play with it.

They could hurt themselves or others, or could accidentally damage the device.

Your mobile device contains small parts with sharp edges that may cause an injury or may become detached and create a choking hazard.

Demagnetization

To avoid the risk of demagnetization, do not allow electronic devices or magnetic media close to your device for a long time.

Electrostatic Discharge (ESD)

Do not touch the SIM card's metal connectors.

Air Bags

Do not place the device in the area over an air bag or in the air bag deployment area.

Store the device safely before driving your vehicle.

Seizures/Blackouts

The device can produce a bright or flashing light.

Repetitive Motion Injuries

To minimize the risk of RSI when texting or playing games with your device:

- Do not grip the device too tightly.
- Press the buttons lightly.
- Use the special features which are designed to minimize the times of pressing buttons, such as Message Templates and Predictive Text.

- Take lots of breaks to stretch and relax.

Emergency Calls

This mobile device, like any wireless phone, operates using radio signals, which cannot guarantee connection in all conditions. Therefore, you must never rely solely on any wireless device for emergency communications.

Loud Noise

This mobile device is capable of producing loud noises, which may damage your hearing. Turn down the volume before using headphones, Bluetooth stereo headsets or other audio devices.

Device Heating

Your device may become warm during charging and during normal use.

Electrical Safety

Accessories

Use only approved accessories.

Do not connect with incompatible products or accessories.

Take care not to touch or allow metal objects, such as coins or key rings, to contact or short-circuit the battery terminals.

Connection to a Car

Seek professional advice when connecting a mobile device interface to the vehicle electrical system.

Faulty and Damaged Products

Do not attempt to disassemble the device or its accessory.

Only qualified personnel should service or repair the device or its accessory.

If your device or its accessory has been submerged in water, punctured, or subjected to a severe fall, do not use it until you have taken it to be checked at an authorized service center.

Interference

General Statement on Interference

Care must be taken when using the mobile device in close proximity to personal medical devices, such as pacemakers and hearing aids.

Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 15 cm be maintained between a mobile device and a pacemaker to avoid potential interference with the pacemaker. To achieve this, use the mobile device on the opposite ear to your pacemaker and do not carry it in a breast pocket.

Hearing Aids

People with hearing aids or other cochlear implants may experience interfering noises when using wireless devices or when one is nearby.

The level of interference will depend on the type of hearing device and the distance from the interference source, increasing the separation between them may reduce the interference. You may also consult your hearing aid manufacturer to discuss alternatives.

Medical Devices

Please consult your doctor and the device manufacturer to determine if operation of your mobile device may interfere with the operation of your medical device.

Hospitals

Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Aircraft

Switch off your wireless device whenever you are instructed to do so by airport or airline staff.

Consult the airline staff about the use of wireless devices on board the aircraft, if your device offers a 'flight mode' this must be enabled prior to boarding an aircraft.

Interference in Cars

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a hands-free kit with an external antenna is included in the installation.

Explosive Environments

Petrol Stations and Explosive Atmospheres

In locations with potentially explosive atmospheres, obey all posted signs to turn off wireless devices such as your phone or other radio equipment.

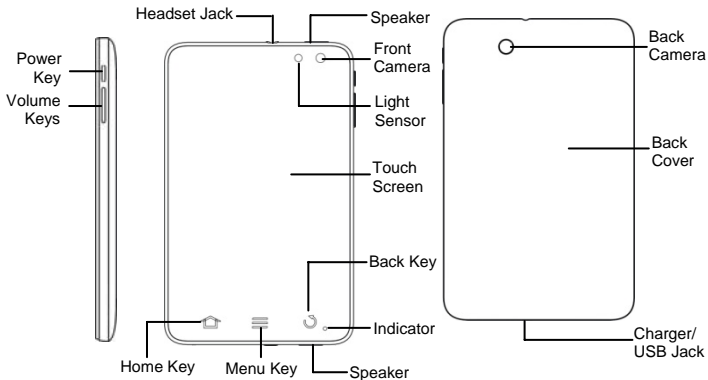

Areas with potentially explosive atmospheres include fuelling areas, below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

Blasting Caps and Areas

Power off your mobile phone or wireless device when in a blasting area or in areas posted power off “two-way radios” or “electronic devices” to avoid interfering with blasting operations.

Getting Started

Overview

Key Definition

Key	Function
Power Key	Press and hold to power on your 3G Tab. Press to switch to sleep mode. Press to wake up your 3G Tab. Hold on for Phone options: Silent mode, Airplane mode or Power off.
Home Key	Touch to return to the Home Screen from any screen. Hold to see the recently used applications.
Menu Key	Touch to get menu options for the current screen.
Back Key	Touch to go to the previous screen.
Volume Keys	Use to control the volume Up or Down.

Starting up

Installing Your SIM/memory Card

Power off your Reliance 3G Tab before installing or replacing the battery, SIM card, or memory card.

1. Remove the back cover.

2. Insert your SIM card into the SIM slot. There is a diagram showing the correct orientation of the card printed above the SIM slot.

3. Insert your memory card into the memory card slot. There is a diagram showing the correct orientation of the card printed above the memory card slot.

Notes:

microSD logo () is a trade mark of SD Card Association.

Inserting Battery

1. Insert the battery with the contacts located against the metal springs.
2. Push the battery down into place.

Charging Your Reliance 3G Tab

The new battery is not fully charged. To charge the battery, you need to:

1. Connect the adapter to the charger jack.

2. Connect the charger to a standard AC wall outlet.

Notes:

- If the battery is low, there will be a pop-up message on the screen and the indicator light will be red.
- When you charge your device, the indicator light will change according to the battery level:

Indicator color	Battery level
Red	Less than 10% of the total battery level
Orange	More than 10%, but less than 90% of the total battery level
Green	More than 90% of the total battery level

- If the device is powered on and the battery is charging, the icon  will appear on the status bar. When charging is completed, the battery indicator  appears on the status bar.

3. Disconnect the charger when the battery is fully charged.

Powering on/off Your Device

Powering on/off Your Device

1. Make sure your SIM card and the battery are inserted.
 2. Press and hold the **Power Key** to power on your device.
- To power off your device, press and hold the **Power Key** to get the Device options, select **Power off**, and then Touch **OK**.

Switching Your Device to Sleep Mode

Press the **Power Key**.

Sleep Mode suspends your device to a low-power-consumption state while the display is off to save battery power. Your device also goes into Sleep Mode automatically when you leave it idle after a certain period of time.

Waking up Your Device from Sleep Mode

If your device is switched to tablet options sleep mode, you need to wake it up:

1. Press the **Power Key** to activate your screen display.
2. Drag  icon to the right.

Notes:

If you have set an unlock pattern for your device, you need to draw the pattern to unlock your screen.

Getting Around Your Device

Touch Control

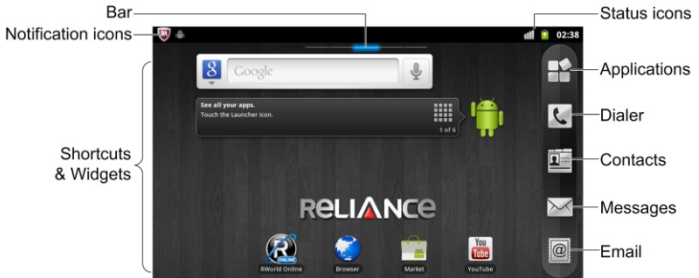

You can use finger gestures to control your device. The controls on your touch screen change dynamically depending on the tasks you're performing.

- Touch the buttons, icons, or applications to select items or to open applications.
- Keep your finger on an item to see the available options.
- Flick the screen to scroll up, down, left or right.
- Point, drag and drop to move particular items across the screen.
- Pinch with two fingers, or double-tap the screen, to zoom in/out on a web page or an image.

NOTE: You can view the phone screen in portrait or landscape orientation simply by holding it upright or turning it on its side.

Home Screen

You can add or remove home items in your Home Screen.

Notifications	Displays the reminders and status icons of your device. Flick down to open the notifications panel.
---------------	---

Bars	Shows you which part of the Home Screen you are looking at.
Shortcuts & Widgets	Touch to start related applications.
Applications	Touch to open the main menu.

Extending the Home Screen

Beyond the screen width, the Home Screen extends to provide more space for adding items. Slide your finger to the left or right to get the extended Home Screen.

Changing the Wallpaper

1. Touch the **Home Key** to return to the Home Screen.
2. Touch the **Menu Key** and select **Wallpaper**.

3. Select the wallpaper you want to use from **Gallery**, **Live wallpapers**, or **Wallpapers**.
4. Touch **Save** or **Set wallpaper**.

Adding a Home Screen Item

1. Touch the **Home Key** to return to Home Screen.
2. Slide left or right to find an extended Home Screen where there is space to add an item.
3. Touch the **Menu Key** and select **Add**.
You can also Touch and hold the blank area of the Home Screen to get the **Add to Home screen** shortcut menu.
4. Select an item type and the item you want to add to Home Screen.

Removing a Home Screen Item

1. Touch the **Home Key** to return to Home Screen.
2. Touch and hold the item you want to delete until the  icon appears on the screen.
3. Drag the item into .

Device Status and Notifications

Your 3G Tab will tell you exactly what's going on by showing you simple icons. Here's what they mean.

Status Icons

	Connected to GPRS mobile network		Mobile network signal strength
	GPRS in use		No signal
	Connected to EDGE mobile network		Roaming
	EDGE in use		Phone speaker is mute
	Connected to 3G mobile network		Phone microphone is mute

	3G in use		No SIM card installed
	Battery is very low		GPS is on
	Battery is low		Receiving location data from GPS
	Battery is full		Connected to a Wi-Fi network
	Battery is charging		Alarm is set
	Vibrate mode		Bluetooth is on

	Airplane mode		Connected to a Bluetooth device
	Wired microphone headset		

Notification Icons

	New Mail		New Google Talk message
	New SMS		Upcoming event
	New voicemail		Song is playing
	Missed call		Downloading data

	Call in progress		Uploading data
	Call on hold		Data is syncing
	Call forwarding is on		USB is connected
	Problem with SMS/MMS delivery		

Opening the Notification Panel

From the **Notifications Panel**, you can get the information of calendar events, new messages, and ongoing settings such as call forwarding or the current call status. You can open the message, reminder, event notification etc. from the Notification Panel.

1. Touch and hold the notifications bar until  appears on the top of the Screen.
2. Drag the  downwards.

Tips:

You can also open the **Notifications Panel** from the Home Screen by touching the **Menu Key > Notifications**.

Applications and Settings Preview

Programs Preview

Your Reliance 3G Tab has lots of functions. Touch  to get the following programs that are pre-installed on your device.

Applications	Description
Alarm	Enables you to set alarms.
BIGFlix	Visit BIGFlix.
Browser	Enables you to browse the internet.
Calculator	Enables you to perform the basic calculation, such

Applications	Description
	as addition, subtraction, multiplication, division and so on.
Calendar	Enables you to schedule appointments, including meetings and other events.
Call log	Enables you to view your call history.
Camcorder	Enables you to enter camcorder and shoot the video clips you like.
Camera	Enables you to enter the camera screen directly and use the camera features.
Contacts	Enables you to manage the information of your friends and colleagues.
Dialer	Enables you to dial a number to call.
Docs To Go	Enables you to handle documents on your Reliance 3G Tab.

Applications	Description
Downloads	Enables you to view the download information.
ET	Visit Economic Times.
Email	Enables you to enter the Email screen, where you can setup Email, send or receive Emails.
Facebook	Visit Facebook.
File Manager	Enables you to organize and manage your files on your microSD card.
FM Radio	Enables you to search for radio channels, listen to them, and save them on your device.
Gallery	Enables you to organize and manage your multimedia files.
Gmail	Enables you to access your Gmail account and check your email on your mobile device.
Google Search	Enables you to search web pages, applications or

Applications	Description
	contacts.
Google+	Share updates and see what's going on around you with Google+.
Latitude	See your friends' locations and share yours with them.
Maps	Enables you to track your current location, view real-time traffic situations, and receive detailed directions to your destination.
Market	Enables you to access to useful applications and fun games which you can download and install on your device.
McAfee Security	Protect your 3G Tab from illegal use.
Messages	Enables you to enter the Messages screen, where you can send and receive SMS and MMS messages.
Messenger	Bring groups of friends together into a simple group conversation with Messenger.

Applications	Description
Music 	Shop music online and listen instantly using the Google Music app.
Music 	Browse your audio files and listen to them.
Navigation	Enables you to use Google Maps Navigation.
NDTV	Brings you stories and videos from the NDTV studios.
News & Weather	Enables you to check the weather and top news.
Note pad	Enables you to create text notes.
Orkut	Visit Orkut.
Places	Enables you to find restaurants, ATMs, and other places of interest near you.
R World	Appears on the screen only if your SIM card provides this function. Please contact your service provider for

Applications	Description
	detailed information.
Reliance	Express dial by Reliance.
Reliance TV	Watch TV.
RWorld Online	Visit RWorld online.
Settings	Enables you to adjust the device settings.
Sound Recorder	Enables you to record audio clips.
Stopwatch	Enables you to measure the exact time it takes to do something.
Talk	Enables you to send and receive instant messages and voice over internet protocol (VOIP), offered by Google Inc.
Task Manager	Enables you to view and manage all the running programs on your device.
TOI	Visit The Times of India.

Applications	Description
Twitter	Visit Tritter.
Videos	Enables you to browse your video files and watch them in the Videos player.
Voice Search	Enables you to searching or dialing by voice instead of typing.
YouTube	Enables you to watch YouTube videos and upload your own.

Settings Preview

You can adjust the device settings. Touch the **Home Key** >  > **Settings** to view all the settings on your device.

Tips:

You can also Touch the **Menu Key** > **Settings** from the Home Screen.

Wireless & networks	Enables you to configure and manage your device's wireless connections, such as Wi-Fi, Bluetooth,
---------------------	---

	mobile networks, tethering & portable hotspot, and Virtual Private Networks. You can also enable the Airplane mode.
Call settings	Enables you to set up fixed dialing numbers, voicemail, video call, speed dial, call barring, call forwarding, call waiting, caller ID, SMS reject, and internet call settings etc.
Sound	Enables you to set sound settings, such as ringtones, notifications and so on.
Display	Enables you to set display settings such as screen brightness and so on.
Location & security	Enables you to set the Screen unlock pattern, SIM card lock , Passwords , Device administration , or manage the device's Credential storage . You can also select the sources to use when determining locations from My Location .

Applications	Enables you to manage applications and installation of new programs.
Account & sync	Enables you to manage your account and configure general sync settings.
Privacy	Enables you to configure privacy settings, such as back up Settings, and Personal data.
Storage	Enables you to check the available memory of the external card and the internal storage.
Language & keyboard	Enables you to set the locale (operating system language and region) and text input options.
Voice input & output	Enables you to configure the text-to-speech settings if you have installed a text-to-speech (voice data) application.
Accessibility	Enables you to manage accessibility options.
Date & time	Enables you to set the date, time, time zone, and date/time format. If the network supports, you can

	also enable automatic time update.
About device	Enables you to view the device status, battery level, and legal information.

Opening Recently Used Applications

1. Touch and hold the **Home Key** from any screen until the following recently used applications interface appears.

2. Touch the application you want to open.

Phone Calls

Making a Call

Making a Call from Dialer

1. Touch  from the Home Screen.
2. Enter the phone number you want to call.
Touch  to erase the wrong entry, hold this key to clear all digits.
Your device automatically lists the matching contacts. You can touch  to hide the keypad and to see if there are more matching numbers or contacts.
3. Touch  to make the voice call and touch  to make the video call.

Making a Call from Contacts

1. Touch  from the Home Screen.

2. Slide your finger to scroll the contacts list and touch the contact you want to call.

Tips:

You can search for a contact by touching .

3. Touch .

Making a Call from Call History

1. Touch  from the Home Screen to open the Dialer.
2. Touch  to switch to the **Call log** tab.

Tips:

You can also open call history by touching the  > **Call log** from the Home Screen.

3. Touch a recently dialed or received call from the list. You can scroll down the list to see more call history.
4. Touch  to make the voice call.

Making a Call from a Text Message

If a text message contains a phone number that you want to call, you can make the call while viewing the text message.

1. Touch the **Home Key** >  and touch the message conversation you need.
2. Touch the message you need in the conversation.
3. Select the number and touch .

Making an Emergency Call

1. Enter the emergency number for your location from Dialer.
2. Touch .

Notes:

It is possible to dial emergency numbers when the SIM card is not inserted. Contact your service provider for the emergency numbers they support.

Making an International Call

Notes:

This function is subject to your service operator and the network status.

1. Touch and hold  from the dialer to enter “+”.
2. Enter the full phone number.

For example: +49-123-12345678 in the following format: + country code-area code-phone number.

3. Touch  to make the voice call and touch  to make the video call.

Receiving a Call

Answering an Incoming Voice Call

When there is an incoming call, the Reliance 3G Tab will display the information on the screen.

Drag  to the right to answer the call.

Answering an Incoming Video Call

When there is an incoming call, the Reliance 3G Tab will display the information on the screen.

Touch  to answer the video call. Touch  to change the video call to voice call.

Rejecting an Incoming Call

Drag  to the left to reject the voice call or touch  to reject the video call.

Muting a Call

During a call, you can touch **Mute** to turn off the microphone so that the

person with whom you are speaking cannot hear you, but you can still hear him or her.

When the microphone is turned off, the mute icon  appears on the screen.

Putting a Call on Hold

During a voice call, you can use the following methods to put the call on hold.

Touch . The  icon will be displayed if a call is on hold.

Ending a Call

Touch  to end a voice call or touch  to end a video call.

Call Settings

You can adjust the call settings of your phone. To open the call settings menu, press the **Menu Key > Settings > Call settings** from the Home

Screen.

Fixed Dialing Numbers	Enables you to restrict outgoing calls to a fixed set of numbers. To enable this feature you must know your SIM card's PIN2 code.
Voicemail service	Enables you to select a voicemail service provider.
Voicemail settings	Enables you to specify a voicemail number.
Fallback to voice call	Enable or disable video call auto fallback to voice call.
Auto drop video call	Enable or disable video call auto drop to voice call.
Alternative picture	Options for selecting alternative picture.
Video call forwarding	Enables you to forward incoming video calls to a different number. You can select when to forward:

	Always forward, Forward when busy, Forward when unanswered, or Forward when unreachable.	
Video call barring	Forbid certain types of video calls.	
Speed dial	Enables you to set a speed dial number.	
Call Barring Settings	Forbid certain types of calls.	
Set SMS reject	Set the SMS content when you reject a call.	
Call forwarding	Enables you to forward incoming voice calls to a different number. You can select when to forward: Always forward, Forward when busy, Forward when unanswered, or Forward when unreachable.	
Additional Settings	Caller ID	Enables you to choose whether to display your number in outgoing calls.
	Call waiting	Enables you to choose whether to be notified of new incoming calls while you

		are already on a call.
Accounts	Set up Internet calling (SIP) accounts.	
Use Internet calling	Choose when to use the Internet calling function.	

Contacts

Starting to use Contacts

You can add new contacts along with their information. Setting up communication information for the contact will allow you to call the person quickly or browse the contact's information. Contacts are saved in the internal memory or in the SIM card. If you store the information in the SIM card, you can fill the name and a number. If you store the information in the internal memory, you can also fill out more information including Email, Postal address, pictures, Nickname, website, etc.

Touch the **Home Key** >  to enter the Contacts Screen.

Contacts Screen

There are five tabs in the Contacts Screen: **Dialer**, **Call log**, **Contacts**, **Favorites**, and **Groups**.

Importing/Exporting Contacts

You can import/export contacts from/to you SIM card or microSD card.

Import/export contacts from/to SIM card

1. Touch the **Menu Key**  > **Import/Export** from the Contacts Screen.
2. Select to import or export contacts from/to your SIM card.
Your Reliance 3G Tab will automatically read the contacts.
3. Select the contacts you want to import/export.

Tips:

► If you want to import/export all contacts, touch the **Menu Key** > 

4. Touch .

Import/export contacts from/to memory card

1. Touch the **Menu Key**/ > **Import/Export** from the Contacts Screen.

2. Select to import or export contacts from/to microSD card.

If you want to import contacts from microSD card, you should have vCard files saved in the microSD card. If there is more than one vCard file, you need to select the vCard file.

3. Touch **OK**.

Sharing Contacts Information

1. Press **Menu Key** and touch **Import/Export** > **Share visible contacts** from the Contacts Screen. Your phone will export all information of the contacts in the Contact Screen to a temporary vCard file.

2. Choose how you want to send the vCard file. You can send it via

Bluetooth, mail or messages.

Creating a Contact

1. Touch  or touch the **Menu Key**/ > **New contact** from the Contacts Screen.
2. Select the location to save your contact.
3. Enter the name and phone numbers. You can also set the Group, Email addresses, IM addresses, Postal addresses, Organizations etc. if you select to create a phone contact.
4. Touch Done to save the contact.

Adding a Contact to Favorites

1. Select the contact you want to add to Favorites from your Contacts Screen.
2. Hold the contact until a shortcut menu appears.

zjm

Edit number before call

Text contact

Video Call

Add to favorites

Add to group

Copy to SIM

Edit contact

Send contact by SMS

Send contact by MMS

3. Touch **Add to favorites**.

Searching for a Contact

1. Touch the  icon at the bottom of the Contacts Screen.
 2. Input the contact name you want to search for.
- The contacts matched will be listed.

Editing a Contact

1. Select the contact you want to edit from the Contacts Screen.
2. Touch the  icon at the bottom of the contact details screen.

Tips:

You can also edit a contact by holding it in the Contacts Screen and select **Edit contact** from the pop-up shortcut menu.

3. Edit the contact and touch **Done**.

Deleting a Contact

1. Select the contact you want to delete from the Contacts Screen.
2. Touch the  icon at the bottom of the contact details screen.

Tips:

You can also delete a contact by holding it in the Contacts Screen and select **Delete contact** from the pop-up shortcut menu.

3. Touch **OK**.

Entering Text

Using the On-screen Keyboard

When you enter a field that needs text or numbers, hold the input box and select **Input method** from the pop-up menu to change input method.

Android Keyboard

Android Keyboard is a keyboard layout similar to a desktop computer keyboard. You can choose to use the landscape orientation of the on-screen keyboard, by turning the Reliance 3G Tab sideways.

Tips:

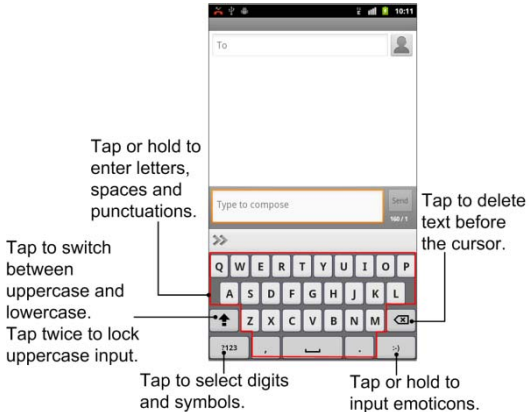

- If you want to use the landscape keyboard, you need to select the **Auto-rotate screen** check box in **Settings > Display**.

XT9 Text Input

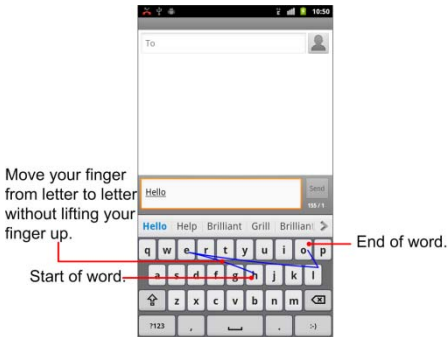

XT9 Text Input can speed up text input by replacing the letter touching/typing motion of input with a tracing gesture where you move your finger from letter to letter without lifting the finger until you reach the end of the word.

You can select to use one of the three layouts (**Keyboard**, **Reduced keyboard**, **Phone keypad**) of XT9 Text Input Keyboard.

- Keyboard

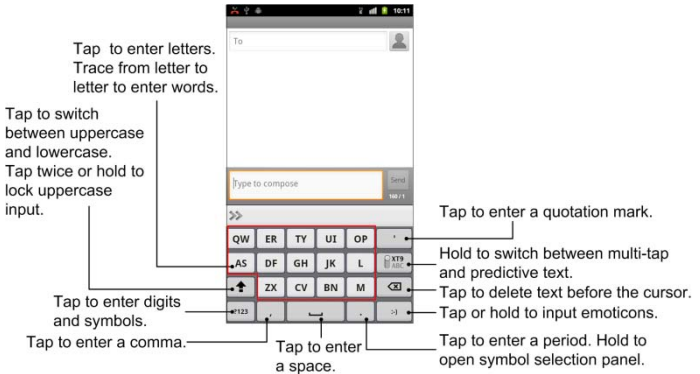

Move your finger from letter to letter to trace a word without lifting the finger until you reach the end of the word.

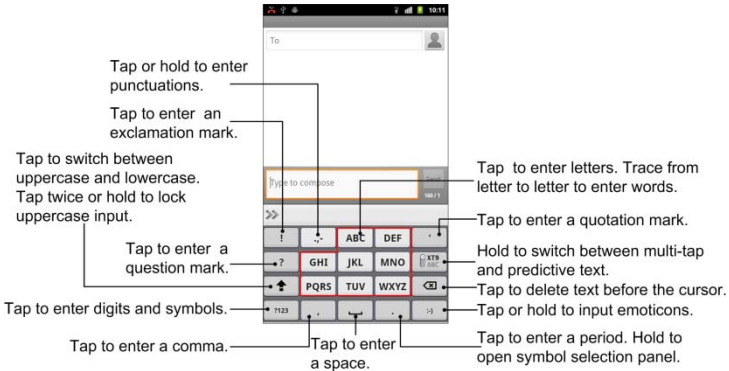

The trace feature is also available in the **Reduced keyboard** layout and **Phone keypad** layout.

- Reduced keyboard

- Phone keypad

- Using the tool bar

Notes:

The  icon is available when more than one language is activated. You can select more input languages by pressing the **Menu Key > Settings > Language & keyboard > XT9 Text Input > Languages and settings** from Home Screen.

Entering Text through the On-screen Keyboard

1. Enter a field that needs text or numbers.
2. Touch or hold the letters on the keyboard to enter your text.

Entering Numbers or Symbols

1. Enter a field that needs text or numbers.
2. Touch  to open the number panel.
3. Select the numbers or symbols.

Input Settings

You can configure the touch input settings by touching the **Menu Key > Settings > Language & keyboard** from Home Screen.

Select language

Select the language you used.

XT9 Text Input

- **Languages and settings:** Select input languages. Touch a language to set up keyboard layout, word suggestion settings, key input settings, trace input settings, and handwriting input settings.
- **Preferences:** Set up keypress vibration, keypress sound, auto-capitalization, and auto-punctuation.
- **About:** View the XT9 version information.

Android keyboard

- **Vibrate on keypress:** Enables vibration feedback as you touch on the keyboard.
- **Sound on keypress:** Enables the sound feedback as you touch on the keyboard.
- **Popup on keypress:** Enables popup feedback of letters when you touch the keyboard.
- **Touch to correct words:** Touch entered words to correct them.
- **Auto-capitalization:** Select the check box to capitalize the first letter of each sentence automatically.

- **Show settings key:** choose to show or hide the settings key.
- **Voice input:** Enables you to input by voice instead of typing.
- **Input languages:** Select the input language.

Messages

Messaging is where all of your SMS and MMS accounts are located. To access your message accounts, touch the **Home Key** >  > **Messages**.

Exchanging Messages

From **Messages**, you can receive and send an SMS or MMS.

When you receive a new message, you can open it from the Notifications Panel, or from Messages Screen. Simply touch on the new message to read it.

The device will alert you for the unread message(s) with the icon  in the status bar.

Composing an SMS

1. Touch the **Home Key** > .

2. Touch **New message**.
3. Touch **To** field and enter the recipient's number. You can also enter the letters of the recipient; the contact which matches the first letter of the recipient name is listed, and then you can select a recipient from the list.
4. Touch **Type to compose** field and enter the message.
5. Touch **Send** to send your SMS.

Composing an MMS

1. Touch the **Home Key** > .
2. Touch **New message**.
3. Touch **To** field and enter the recipient's number. You can also enter the letters of the recipient, the contact which match the first letter of the recipient name is listed, and then select a recipient from the list.
4. Touch the **Menu Key** > **Add subject** to enter the subject of your MMS.

5. Touch **Type to compose** field and enter the message.
6. Touch the **Menu Key > Attach** to add an attachment to your MMS:
 - **Pictures**: Select a picture to add to your MMS.
 - **Capture picture**: Take a photo and add to your MMS.
 - **Videos**: Select a video clip to attach to your MMS.
 - **Capture video**: Shoot a video clip and add to your MMS.
 - **Audio**: Select an audio file to add to your MMS.
 - **Record audio**: Record an audio file and add to your MMS.
 - **Slideshow**: Edit a slideshow and add to your MMS.
7. Touch **Send** to send your MMS.

Tips:

- If you add a subject or an attachment to your SMS, the SMS will be converted to an MMS automatically.
- If you remove the subject and attachment of your MMS, the MMS will be converted to an SMS automatically.

Managing Messages and Messages Threads

SMS and MMS messages which are sent to and received are grouped into message threads in the Messages screen. Threaded messages show you exchanged messages (similar to a chat program) with a specific contact on the screen. Message threads are sorted by the time when you received them, with the latest one on the top.

Reply to a message

1. Touch the message you want to reply to from the Messages Screen.
2. Touch **Type to compose** and enter the contents of your message.
3. Touch **Send**.

Delete a message (thread)

1. Touch the **Menu Key > Delete threads** from the Messages Screen.
2. Select the messages or threads you want to delete.
3. Touch **Delete**.

Message Settings

Touch the **Menu Key > Settings** from the Messages Screen. You can configure your message settings.

Storage settings

- **Delete old messages:** Select to delete old messages as limits are reached.
- **Text message limit:** Set the maximum number of text messages allowed in a single thread.
- **Multimedia message limit:** Set the maximum number of multimedia messages allowed in a single thread.

Text message (SMS) settings

- **Delivery reports:** Request a delivery report for each SMS message you send.
- **Manage SIM card messages:** Manage messages stored on your SIM card.
- **SMS validity:** Set a period time of SMS validity.

- **SMS priority:** Set the priority for SMS.
- **Service Center:** Enables you to view and edit the service center.

Multimedia message (MMS) settings

- **Delivery reports:** Request a delivery report for each MMS message you send.
- **Read reports:** Request a read report for each MMS message you send.
- **Auto-retrieve:** Select to retrieve MMS messages automatically.
- **Roaming auto-retrieve:** Select to retrieve MMS messages automatically when you are roaming.
- **MMS validity:** Set a period time of MMS validity.
- **MMS creation mode:** Enables you to create the MMS correctly.

Notifications settings

- **Notifications:** Select to display message notifications in the status bar.
- **Select ringtone:** Select a ringtone for your incoming messages.
- **Vibrate:** Select to make your 3G Tab vibrate when receiving a new message.

Signature settings

- **Edit signature:** Edit your signature.
- **Add signature:** Create a new signature.

Using Email

Touch the **Home Key** > . You can enter the Email Screen to setup your Email account and exchange Emails.

Creating an Email account

1. Enter your Email address and password, and then touch **Next** when you enter the Email Screen for the first time.
2. Touch **Manual setup** to add new email account. Select a type of account and touch **Next**.
3. Edit the incoming server settings and then touch **Next/Next[Check]**.
If you touch **Next[Check]**, your device will check the incoming server settings and finish the setup automatically. If you are notified that setup could not be finished, you might need to correct some settings to finish it. If there is any problem, please contact your mobile service provider and Email service provider.
4. Edit the outgoing server settings and touch **Next/Next[Check]**.

If you touch **Next[Check]**, your device will check the outgoing server settings and finish the setup automatically.

5. Set the Email checking frequency, select whether to use this account by default or be notified when Email arrives, and then touch **Next**.
6. Set up the download options and the message number per download, and then touch **Next**.

Composing and sending an Email

After creating an Email account, you can compose and send Email messages.

1. Touch the **Menu Key > Compose** from the Email Screen.
2. Touch the **To** field and enter the recipient's address.

When you enter the address, the matching addresses saved in your **Contacts** will be displayed. You can touch the recipient from the list.

Tips:

You can also touch the **Menu Key > Add Cc/Bcc** to add recipients.

3. Enter the subject and the content of your Email.
4. Touch **Send**.

Reply to or Forward an Email

1. Open the Email you want to reply to or forward from Email Screen.
2. Touch **Reply** or the **Menu Key > Forward** to reply to/forward the Email.

You can also touch **Reply all** to reply to all recipients of the Email.

3. Enter the contents/recipients of your Email.
4. Touch **Send**.

Email Settings

You can touch **Menu Key > More > System settings** to set up storage, exchange and other settings.

Getting Connected

Connecting to the Internet

Your device's networking capabilities allow you to access the Internet or your corporate network.

Ways of Connecting to the Internet

You can use the default connection settings to connect to the Internet through your mobile network (GSM/WCDMA), or Wi-Fi.

GSM/WCDMA

Use GSM/WCDMA to connect to the Internet and to send and receive MMS/Email messages on your Reliance 3G Tab. You will need a data plan to use your wireless service provider's GSM/WCDMA network. Check with your wireless service provider for GSM/WCDMA rates. If the GSM/WCDMA settings are not pre-configured on your device, contact your operator for the parameters. Do not change the settings as this may cause services to stop working.

Adding a new GSM/WCDMA connection

Before you begin, get the following information from your service provider:

- Access Point Name (APN)
 - Your user name and password if needed.
 - Server IP and the port number if the network uses a proxy server.
1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Mobile networks** > **Access Point Names**.
 2. Touch the **Menu Key** > **New APN**.
 3. Touch each item to enter the information you get from your service provider.
 4. Touch **Menu Key** and touch **Save** to complete.

Notes:

If you want to set the APN to default settings, touch the **Menu Key** > **Reset to default**.

Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to 300 feet (100 meters).

Turning on Wi-Fi

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks**.
2. Select the **Wi-Fi** check box to turn Wi-Fi on.

Adding a Wi-Fi Network

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Wi-Fi settings**.

The Wi-Fi network names and security settings (open network or secured network) of detected Wi-Fi networks are displayed in the **Wi-Fi networks** section.

2. Touch a network to connect.
 - If you select an open network, you will be automatically connected to the network.

- If you select a secured network, you will need to input the wireless password.

Checking the Wi-Fi Network Status

You can check the Wi-Fi network status from the status bar and wireless controls.

- Check the  icon in the status bar.
- Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Wi-Fi settings**, then touch the wireless network that the device is currently connected to.

You can check the network status from the pop-up window.

Using Browser

You can use your Browser to browse most of the websites. Your Reliance 3G

Tab will automatically create a GSM/WCDMA connection for you while browsing web pages.

Opening Browser

Touch the **Home Key** >  > **Browser** to start this function.

Opening Web Pages

In **Browser**, you can open web pages through the following ways.

- Touch the address bar to enter the website you want to browse, and touch the  icon.
- Touch the **Menu Key** > **Bookmarks** and select an item to open.
- Select an item from **Most visited/History** tab of Bookmarks Screen.

Browsing Options

When browsing web pages, you can do some operations.

- Touch the **Menu Key** > **Refresh** to refresh the page.
- Touch the **Menu Key** > **More** > **Forward** to go to the next page.

- Touch the **Menu Key > More > Add bookmark** to set the current page as bookmark.
- Touch the **Menu Key > More > Find on page** to enter the search item to view the search result.
- Touch the **Menu Key > More > Select text** and slide your on the page to select the text you want to copy.
Your Reliance 3G Tab automatically copies the selected text to the clipboard.
- Touch the **Menu Key > More > Page info** to view the page information.
Touch the **Menu Key > More > Share page** to send the page by **Bluetooth, Email, Gmail, Facebook, Google+, Twitter, or Messages.**
- Touch the **Menu Key > More > Downloads** to view the download information.
- Touch the **Menu Key > More > Settings** to set the browser.

- Rotate your device sideways to view the landscape Browser Screen if you select the **Auto-rotate screen** check box in **Display settings** by touching **Home Key** >  > **Settings** > **Display**.

Opening a New Browser Window

1. Touch the **Menu Key** > **New window** to open a new browser window in browser.
2. Touch the address bar to enter the website you want to browse.

Switching Between Different Browser Windows

If you have more than one browser window opened, you can switch between these windows.

1. Touch the **Menu Key** > **Windows** to view all the windows you opened.
2. Touch the page you want to browse.

Tips:

You can also touch  to close a window.

Opening Links in Web Pages

1. Open a web page that contains a link.
2. Touch a link to open the page.

You can also hold on the link to open the shortcut menu:

- **Open:** Open the web page.
- **Open in new window:** Open the web page in a new window.
- **Bookmark link:** Save the link to your **Bookmarks**.
- **Save link:** Download the linked web page to your Reliance 3G Tab.
- **Share link:** Send the link by **Bluetooth, Email, Gmail, Facebook, Google+, Twitter, or Messages**.
- **Copy link URL:** Copy the link to the clipboard.

Download Applications from Web Pages

1. Open a web page that contains an application link.
2. Touch the link or hold on the link and select **Save link** to download the application to your Reliance 3G Tab.

Notes:

Downloaded applications are saved in your microSD card.

Using Bookmarks

You can save your frequently-used pages as bookmarks on your Reliance 3G Tab.

Adding a New Bookmark

1. Open a web page.
2. Touch the **Menu Key > Bookmarks**.
3. Touch **Add**.
4. Enter a name of the bookmark and touch **OK**.

Editing a Bookmark

1. Open a Browser window.
2. Touch the **Menu Key > Bookmarks**.
3. Select an item you want to edit and hold on it until the shortcut menu pops up.

4. Select **Edit bookmark**.
5. Edit the name or location, and then touch **OK** to save it.

Deleting a Bookmark

1. Open a Browser window.
2. Touch the **Menu Key > Bookmarks**.
3. Select an item you want to delete and hold on it until the shortcut menu pops up.
4. Select **Delete bookmark** and touch **OK** to confirm the deletion.

Browser Settings

You can set the Browser text size, home page etc. by touching the **Menu Key > More > Settings** from a browser window.

Page content settings

- **Text size:** Adjust the browser text size.
- **Default zoom:** Set the browser default zoom.

- **Open pages in overview:** Select to show overview of newly opened pages.
- **Text encoding:** Select a text encoding type.
- **Block pop-up windows:** Select to block pop-up windows.
- **Load images:** Select to show the images of web pages.
- **Auto-fit pages:** Select to format the web pages to fit the screen.
- **Landscape-only display:** Display the web pages only in landscape screen orientation.
- **Enable JavaScript:** Select to enable JavaScript.
- **Enable plug-ins:** Select to enable plug-ins.
- **Open in background:** Select to open new windows behind the current one.
- **Set home page:** Select to edit the home page web site.

Privacy settings

- **Clear cache:** Delete all the cached page contents.
- **Clear history:** Clear the browser navigation history.

- **Accept cookies:** Select to allow sites to save and read cookies.
- **Clear all cookie data:** Clear the browser cookies.
- **Remember form data:** Select to remember the data you type in forms for later use.
- **Clear form data:** Clear the saved form data.
- **Enable location:** Select to allow sites to request access to your location.
- **Clear location access:** Select to clear access for all websites.

Security settings

- **Remember passwords:** Select to save usernames and passwords for web sites.
- **Clear passwords:** Clear the saved passwords.
- **Show security warnings:** Select to show warnings if there is a problem with a site's security.

Advanced settings

- **Set search engine:** Select Google, Yahoo!, or Bing as your search engine.

- **Website settings:** View advanced settings for individual websites. Only available for some websites.
- **Reset to default:** Clear all browser data and reset all settings to default.

Bluetooth

Bluetooth is a short-range wireless communication technology. Wireless devices with Bluetooth capabilities can exchange information within a distance of about 10 meters without any physical connection. The Bluetooth devices must be paired before the communication is performed.

Turning on/off Bluetooth

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks**.
2. Select the **Bluetooth** check box to turn Bluetooth on.

The  icon will be displayed in the status bar. If you want to turn Bluetooth off, clear the **Bluetooth** check box.

Notes:

By default, Bluetooth is turned off. If you turn it on, and then turn off your device, Bluetooth is also turned off. When you turn on your device again, Bluetooth turns on automatically.

Making Your Device Visible

Other devices with Bluetooth capabilities can detect your Reliance 3G Tab, establish a partnership, or use a Bluetooth service.

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Select the **Bluetooth** check box if needed.
3. Select the **Discoverable** check box to make your device visible.

Changing Your Device Name

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Select the **Bluetooth** check box if needed.

3. Touch **Device name**.
4. Enter the name and touch **OK**.

Pair with Another Bluetooth Device

You can pair your device with another device that has Bluetooth capabilities. Once you do this, the two devices must have Bluetooth turned on but do not need to be visible for you to exchange information between them.

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Touch **Scan for devices**.

Your Reliance 3G Tab will display all reachable Bluetooth devices in the **Bluetooth devices** section.

3. Touch the device you want to pair with.
4. If necessary, type your PIN to pair and touch **OK**.

Tip: The same PIN should be entered on the other device.

Experiencing Multimedia

Camera

Your Reliance 3G Tab has two digital cameras, front camera and back camera.

Opening Camera

Touch the **Home Key** >  > **Camera** to open the camera.

Notes:

You can switch from the camera to the camcorder quickly: Drag the  switch right.

Taking Pictures

Aim the camera at the subject and then touch  to take the shot.

► Touch the picture at the bottom of right corner (portrait mode) of your Camera Screen to view the picture just captured.

- ▶ Touch the **Menu Key > Gallery** to view all of your pictures.

Camera Settings

From the Camera Screen touch  to set up focus mode, exposure, picture size/quality, color effect, ISO, anti-banding, saturation, contrast, sharpness, and restore the default camera settings.

Touch  or  to choose whether to save photo's geographic location.

Touch  to change white balance.

Touch **1x** to zoom in or out.

Touch  to select front camera or back camera.

Tip: To change quickly from camera to camcorder or vice versa, use the switch  icon. Use the  bar to adjust the brightness.

Camcorder

Camcorder enables you to shoot video clips.

Opening Camcorder

Touch the **Home Key** >  > **Camcorder** to open the camcorder.

Notes:

You can switch from the camcorder to the camera quickly:

- Drag the  switch left.

Shooting Videos

1. Touch  to start shooting.
2. Touch  to stop shooting.

Notes:

- Touch the picture at the bottom of right corner (portrait mode) of your camcorder screen to view the video clip just shot.
- Touch the **Menu Key** > **Gallery** to view all of your video clips.

Video Settings

From the Camcorder Screen, touch  to adjust color effect, video quality, video/audio encoder, video duration, and restore the default video settings.

Touch  to adjust the white balance. White balance enables the camera to capture colors more accurately by adjusting to the current lighting environment.

Touch  to change white balance setting.

Touch /**High/Low/MMS/YouTube** to select preset video shooting mode, or customize your own.

Touch  to select front camera or back camera.

Notes:

Under the preset **High**, **Low**, **MMS**, or **YouTube** mode, the settings for video quality, video encoder, audio encoder, and video duration cannot be changed.

FM Radio

With the FM Radio, you can search for radio channels, listen to them, and save them on your device. Note that the quality of the radio broadcast depends on the coverage of the radio station in that particular area. The wired headset works as an antenna, so always connect the headset when using the radio. When you receive an incoming call while listening to the radio, the radio will be turned off during the call.

Opening FM Radio

You need to insert a headset to your Reliance 3G Tab before opening the FM radio.

Touch the **Home Key** >  > **FM Radio** to open the FM radio.

After opening the FM radio, you will see the  icon in the status bar.

Listening to FM Radio

- Press the **Volume Keys** to adjust the volume.
- Touch the **Menu Key > Scan** to scan the radio station.
- Touch the **Menu Key > Settings** to set up the **Regional Band, Audio Output Mode, Alternate Frequency** and **Revert to Factory Defaults**.
- Touch the **Menu Key > Sleep** to set the FM radio sleep timer.
- Touch the **Menu Key > Enable Speaker** to enable or disable the speaker.

Music

You can play digital audio files from your memory card in Music .

Opening Music

You need to copy the audio files you want to play to your memory card first.

1. Touch the **Home Key** >  > **Music** to open Music Screen.
2. Select a file to open.

Playing Music

1. Touch **Artists/Albums/Songs/Playlists** to get the songs you want to play.
2. Touch a song from the list to start playing.

Notes:

Press the **Volume Keys** to adjust the volume.

Creating Playlists

You can create some playlists to organize your music files.

1. Select a music file you want to add to a new playlist.
2. Touch and hold on the file until a shortcut menu pops up.
3. Touch **Add to playlist**.
4. Touch **New**.

5. Enter the playlist name and touch **Save**.

The playlist is created and the file you selected is added to the playlist.

Managing Your Playlists

1. Touch **Playlists** from the Music Screen to view all playlists.
2. Hold on the playlist you want to play or edit until a shortcut menu pops up.
 - Touch **Play** to play the playlist.
 - Touch **Delete** to delete the playlist.
 - Touch **Rename** to edit the playlist name.

Adding Songs to Your Playlist

1. Open the folder where the song you want to add to a playlist is.
2. Hold on the song until a shortcut menu pops up.
3. Select **Add to playlist**.
4. Select a playlist from the list.

Setting a Song as Ringtone

1. Open the folder where the song you want to set as ringtone is.
2. Hold on the song until a shortcut menu pops up.
3. Select **Use as phone ringtone**.

Tips:

You can also set a song as ringtone when you are playing it by touching the **Menu Key > Use as ringtone**.

Using Google™ Music

The **Music** application () works with Google Music, Google's online music store and streaming service. You can stream via mobile data or Wi-Fi and listen to your favorite songs that you've added to your online Google Music library. You can also play audio files you've copied directly to your device from a computer.

NOTE: The availability of Google Music is dependent on your region. If it is not available, or you don't have a mobile data or Wi-Fi connection, you

can only play music stored on your device.

Opening the Music App

Press **Home Key** and touch  > **Music** () to open the application.

Viewing the Music Library and Playing Songs

The music library combines your online Google Music library and songs stored on your device. Swipe left or right in portrait mode to view your library sorted by time, artists, albums, songs, playlists, or genres. You can also touch the triangle next to **Recent**, **Artists**, **Albums**, **Songs**, **Playlists**, or **Genres** in landscape mode to switch the view. Touch a song in your library to start playing it.

Videos

You can use **Videos** to play your video files.

Opening Videos

Touch the **Home Key** >  > **Videos** to open the video player.

Your device will show you all video files saved on your memory card.

Playing Videos

Copy the video file to your memory card before playing it.

1. Touch the video file you want to play from the Videos Screen.
2. Touch on the screen to show the control bar. You can pause, rewind, fast forward, or jump to any part of the video with the time bar.

Note-Tab preloaded Video player can only play video formats like mp4,3gp etc.to play video files of other formats like avi.wmv etc, please download free video player applications like RockPlayer lite,Mobo video player etc from Android market.

Gallery

Gallery helps you view pictures and play back videos. For pictures, you can also do some basic editing tasks. For instance, set them as your wallpaper or contact icon, and share with your friends.

Sound Recorder

Sound Recorder enables you to record your voice memos that you can set as ringtone.

Opening Sound Recorder

Touch the **Home Key** >  > **Sound Recorder** to open the sound recorder.

Notes: You need to install a memory card to use Sound Recorder.

Recording Your Memo

1. Get the microphone near to your mouth.
2. Touch  to start recording.
3. Touch  to stop recording.
4. Touch  to play back the voice recording.

5. Touch **OK** to save the voice recording, or touch **Discard** to discard the recording.

Notes:

You can find your recordings in **Home Key** >  > **Music** > **Playlists** > **My recordings**. If you want to set a recording as ringtone, hold the recording and select **Use as phone ringtone** from the pop-up shortcut menu.

Google Applications

Signing In to Your Google Account

1. Press **Home Key > Menu Key** and touch **Settings > Accounts & sync > Add account > Google**.
2. Read the instructions and select **Next**.
3. If you've got a Google account, touch **Sign in**. Enter your user name and password. Then tap **Sign in**. (Or touch **Create** if you don't have a Google account.)
4. Choose whether to back up data to your Google account. Then touch **Next > Finish setup**.

Using Gmail

Gmail is Google's web-based email service. Gmail is configured when you sign in to your Google account. Depending on your synchronization settings, Gmail on your Reliance 3G Tab is automatically synchronized

with your Gmail account on the web.

Opening Gmail

Touch the **Home Key** >  > **Gmail**.

Creating and sending an Gmail

1. In the Inbox, press the **Menu Key** and then touch **Compose**.
2. Enter the message recipient's email address in the **To** field. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.
3. Enter the email subject, and then compose your email.
4. After composing your email, touch the **Menu Key** > **Send**.

Using Google Calendar

Touch the **Home Key** >  > **Calendar** to use Google Calendar, Google's time management application. You can use the calendar to

schedule appointments, including meetings and other events. Your appointments will be displayed on the screen as are scheduled. All your appointments are synchronized to your Google account, which enables you to share your schedule, get your entire calendar on the go, and receive Email reminder for your upcoming events.

Using Google Talk

Google Talk is Google's instant messaging program, which enables you to communicate with other people that also use Google Talk.

Opening Google Talk

Touch the **Home Key** >  > **Talk**.

Adding a new friend

You can only add people who have a Google account.

1. In the Friends list, press the **Menu Key** > **Add friend**.

2. Enter the Google Talk instant messaging ID or Google email address of the friend you want to add.

Viewing and Accepting an Invitation

1. In the Friends list, press the **Menu Key > Invites**.
All chat invitations you have sent or received are listed on the pending invitations screen.
2. Touch a received pending invitation, and then touch **Accept** or **Decline**.

Starting a Chat

1. Touch a friend in the Friends list.
2. Chat with your friend by entering text using the on-screen keyboard.
3. After entering your message, touch **Send**.

Settings

Basic Settings

Setting the Time and Date

1. Touch the **Home Key > Menu Key > Settings > Date & time.**
2. Clear the **Automatic** check box if you want to set time and date by yourself.
3. Configure the time and date settings:
 - Touch **Set date.** Adjust the date, and touch **Set** to save it.
 - Touch **Select time zone** and touch the area where you are.
 - Touch **Set time.** Adjust the time, and touch **Set** to save it.
 - Touch the check box behind **Use 24-hour format** to change the time format.
 - Touch **Select date format** and select the type you like.

Display Settings

By touching the **Home Key > Menu Key > Settings > Display**, you can configure the display settings, such as brightness, auto-rotate screen, animation, and screen timeout.

Adjusting the Screen Brightness

1. Touch **Brightness**.
2. Adjust the brightness and touch **OK**.

Adjusting the Delay Before the Screen Turns off

1. Touch **Screen timeout**.
2. Select the time from the list.

Switching the Screen Orientation Automatically

You can select to switch your screen orientation to landscape or portrait mode automatically when rotating your Reliance 3G Tab.

Select the **Auto-rotate screen** check box.

Showing Animation when Opening/closing Windows

You can select to show an animation when opening or closing windows.

1. Touch **Animation**.
2. Select the animation type you'd like to use.

If you want to disable this function, select **No animations**.

Sound Settings

By touching the **Home Key > Menu Key > Settings > Sound**, you can configure the sound settings, such as ringtones and notifications.

Setting the Ringtone

1. Touch **Phone ringtone** in **Incoming calls** section.
2. Select the ringtone you want to use from the pop-up list.

Tips:

You can also set an audio file as the ringtone while browsing the music list.

1. Open the songs list by touching the **Home Key** >  > **Music** > **Songs**.
2. Hold the song you like until the shortcut menu pops up.
3. Select **Use as phone ringtone**.

Setting the Default Notification Ringtone

1. Select **Notification ringtone** in **Notifications** section.
2. Scroll the ringtone list and select one to set as the default notification ringtone.
3. Touch **OK** to save.

Switching Your Device to Silent Mode

Select the **Silent mode** check box in **General** section.

Switching Your Device to Vibration Mode

Touch **Vibrate** and select vibration mode in the **General** section.

If your Reliance 3G Tab is already in silent mode, the vibration icon  will appear in the status bar.

Enabling the Haptic Feedback

You can get the vibration feedback while pressing the soft keys and on certain UI interfaces if you have enabled haptic feedback.

1. Touch the **Home Key** >  > **Settings** > **Sound**.
2. Select the **Haptic feedback** check box.

Adjusting the Ringtone, Media and Alarm Volume

If you want to set the ringer volume, make sure your device is not in silent mode.

1. Touch **Volume** in the **General** section.
2. Adjust the **Ringtone**, **Media** and **Alarm** volume and touch **OK** to save.

Tips:

You can adjust the ringer volume quickly by pressing the **Volume Keys** from any screen.

Notes:

If you want to adjust the notification volume together with ringer volume,

select the **Use incoming call volume for notifications** check box.

Enabling the Touch Tones

You can set your Reliance 3G Tab to play tones when touching the keys of Dialer.

Select the **Audible touch tones** check box in the **Feedback** section.

Enabling the Screen Selection Tones

You can set your Reliance 3G Tab to play sound while making a selection by touching the screen.

Select the **Audible selection** check box in the **Feedback** section.

Enabling Dolby Mobile

You can enable Dolby Mobile for better sound quality.

When you playing a song, touch  to enable Dolby. At this time, you can touch the **Menu Key > Dolby Mobile Settings** to select a music mode when playing the music track.

Language Settings

You can change the system language of your device.

1. Touch the **Home Key** >  > **Settings** > **Language & keyboard** > **Select language**.
2. Select a language from the locale list to set it as the system language.

Mobile Network Services

The GSM and WCDMA services are supported by your device. You can configure the network settings according to your phone service.

Enabling Data Roaming

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Mobile networks**.
2. Select the **Data roaming** check box to enable data roaming.

Switching the Network Mode

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Mobile networks** > **Network Mode**.

2. Select **GSM/WCDMA auto**, **WCDMA only**, or **GSM only** to switch the network mode.

Setting the Access Point Names

You can use the default Access Point Names (APN) to connect to the internet. If you want to add a new APN, please contact your network operator to get detailed information.

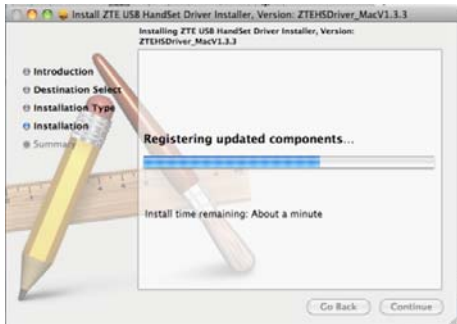

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Mobile networks** > **Access Point Names**.
2. Touch the **Menu Key** > **New APN**.
3. Set the necessary parameters (see *Getting Connected -> Connecting to the Internet -> GPRS/3G/Edge -> Add a new GPRS/3G/EDGE connection.*)
4. Touch the **Menu Key** > **Save**.

Connection with Mac OS

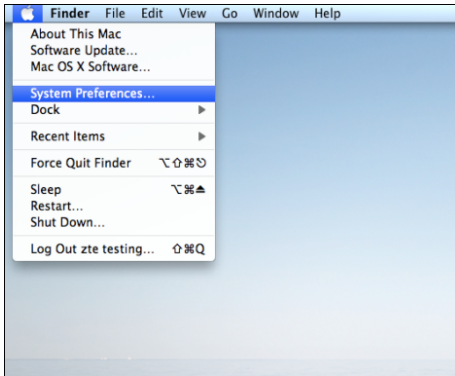

1、Click  icon and install driver for Mac, click installation.

to start the

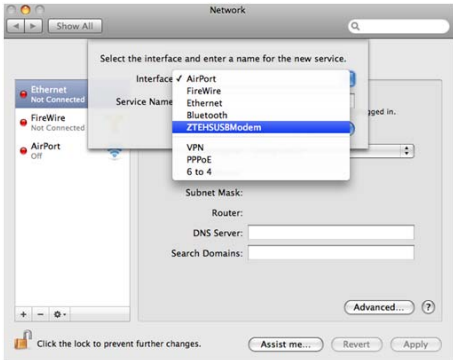

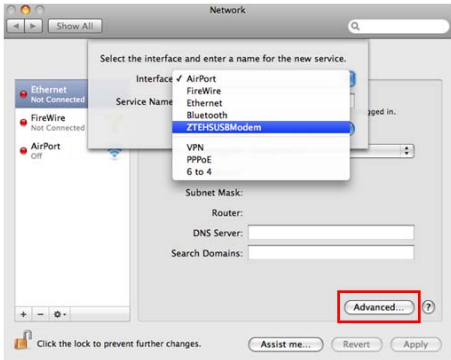

2. Open System Preferences and select network, then you can configure network as bellow:

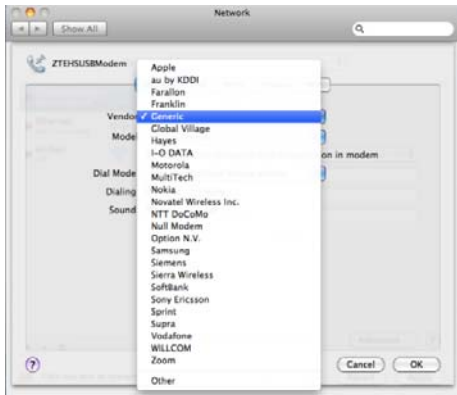

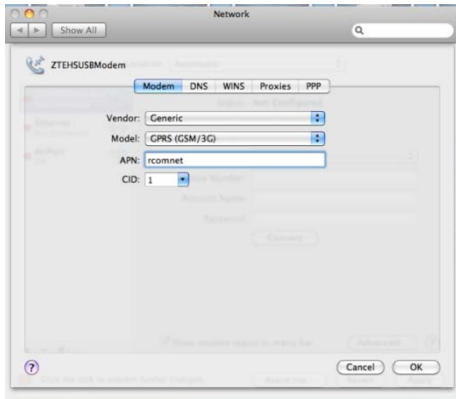

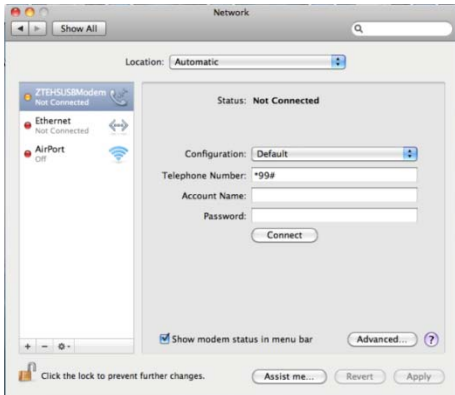

3、 Click "**Apply**", then click "**Connect**" to start connect network.

Sharing Mobile Data Connection

You can share your phone's mobile data connection with a single computer via a USB cable: USB tethering. You can also share your phone's data connection with at least five devices at once, by turning your phone into a portable Wi-Fi hotspot.

When your phone is sharing its data connection, an icon appears in the Status bar and as an ongoing notification in the Notifications panel.

USB tethering activated

Portable Wi-Fi hotspot activated

USB tethering & Portable Wi-Fi hotspot activated

Tips:

Help offers a dialog with information about USB tethering and portable Wi-Fi hotspots as well as information about where to learn more.

Visit android.com/tether for the latest information about tethering and portable hotspot, including supported operating systems and other

details.

USB Tethering

TIPS:

- The PC accesses the Internet via the phone's mobile network. Therefore, set up the GPRS/EDGE/3G connection correctly before you try to use the phone as a modem.
1. Use the USB cable that came with your phone to connect your phone to your computer. When you connect your phone to your PC with the provided USB cable for the first time, a window will pop up and prompt you to install the driver.
 2. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Tethering & portable hotspot**.
 3. Activate **USB tethering** to share your phone's mobile network data connection with your computer via USB connection with  displaying in the status bar.

4. Deactivate **USB tethering** to finish sharing data connection or disconnect the USB cable.

Tips:

- If your computer is running Windows 7, you typically don't need to prepare your computer for tethering. But if you're running an earlier version of Windows or another operating system. For the most current information about which operating systems support USB tethering and how to configure them, visit android.com/tether.
- You can't share your phone's data connection and USB storage or SD card (depending on your phone) via USB at the same time. If you are using your USB connection to copy files to or from your computer, you must disconnect.

Tethering & Portable Hotspot

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Tethering & portable hotspot**.

2. Activate **Portable Wi-Fi hotspot** to share your phone's mobile network data connection as a portable Wi-Fi hotspot with  displaying in the status bar.
3. Deactivate **Portable Wi-Fi hotspot** to finish sharing data connection via Wi-Fi.

Tethering & Portable Hotspot Settings

You can touch **Portable Wi-Fi hotspot settings** to turn the hotspot on and off and to set SSID (the name of phone's Wi-Fi network broadcasted) and secure the Wi-Fi network.

1. Touch the **Home Key** >  > **Settings** > **Wireless & networks** > **Tethering & portable hotspot**.
2. Activate **Portable Wi-Fi hotspot**.
3. Touch **Configure Wi-Fi hotspot**.
In the hotspot dialog, you can change the SSID (network name) that other computers see when scanning for Wi-Fi networks.
You can also touch the Security menu to configure the network with Wi-Fi Protected Access 2 (WPA2) security, with a preshared key

(PSK).

If you touch the WPA2 PSK security option, a password field is added to the Configure Wi-Fi hotspot dialog. If you enter a password, you will need to enter that password when you connect to the phone's hotspot with a computer or other device. Or touch Open in the Security menu to remove security from your Wi-Fi network.

4. Touch **Save** to confirm.

Note: Please enable data services to use tethering features.

Security Settings

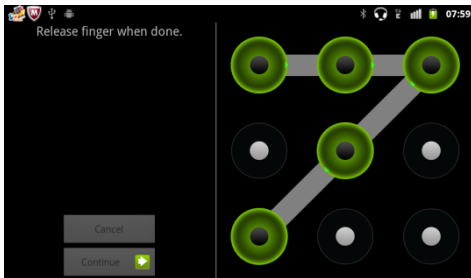

You can protect your device and SIM card from unauthorized use.

Protecting Your Reliance 3G Tab with a Screen Lock

Setting the screen unlock pattern

You can protect your 3G Tab from unauthorized use by creating a personal screen unlock pattern.

1. Touch the **Home Key** >  > **Settings** > **Location & security** > **Set up screen lock.**
2. Touch **Pattern.**
3. Read the instructions and touch **Next.**
4. Watch the example pattern and touch **Next.**
5. Draw your own pattern and touch **Continue.**

6. Draw the pattern again and touch **Confirm**.

Locking the screen

Press the **Power Key** to lock the screen.

Unlocking the screen with a pattern

1. Press the **Power Key**.
2. Draw the pattern you set to unlock the screen.

If you make a mistake, your 3G Tab will ask you to try again.

Protecting Your SIM Card with a PIN

You can set the PIN password to prevent others from using the SIM function. The initial PIN code is provided by your service operator.

1. Touch the **Home Key** >  > **Settings** > **Location & security** > **Set up SIM card lock**.
2. Select the **Lock SIM card** check box.
3. Enter the PIN code and touch **OK**.

Changing SIM PIN

Before changing SIM PIN, you need to enable it.

1. Touch the **Home Key** >  > **Settings** > **Location & security** > **Set up SIM card lock**.
2. Touch **Change SIM PIN**.
3. Enter the PIN code and touch **OK**.
4. Enter a new PIN code and touch **OK**.

5. Re-enter the new PIN code and touch **OK**.

Setting Up Credential Storage

You can select to allow applications to access secure certificates and other credentials.

Enabling Secure Credentials

1. Touch the **Home Key** >  > **Settings** > **Location & security**.
2. Touch **Set password** to create a password.

Tips:

You can also install encrypted certificates from microSD card by touching **Install from SD card**.

Deleting Credentials

1. Touch the **Home Key** >  > **Settings** > **Location & security**.
2. Touch **Clear storage** to clear credentials.

Managing Memory

Managing Your Memory Card

Viewing the Space Information

Touch the **Home Key** >  > **Settings** > **Storage**.

You can view the **Total space/Available space** information in the **SD card** section.

Unmounting Your Memory Card

1. Touch the **Home Key** >  > **Settings** > **Storage**.
2. Touch **Unmount SD card**.

Notes:

The  icon will appear in the status bar.

Erasing Your Memory Card

1. Unmount your memory card.
2. Touch **Erase SD card**.

3. Touch **Erase SD card** to confirm.

Managing Internal Storage

View the phone space information

1. Touch the **Home Key** >  > **Settings** > **Storage**.
2. Scroll down to view the **Available space** in the **Internal phone storage** section.

Reset to factory settings

1. Touch the **Home Key** >  > **Settings** > **Privacy**.
2. Touch **Factory data reset**.
3. Touch **Reset phone**.
4. Touch **Erase everything**.

Application Settings

Managing Applications

You can view and manage the applications installed in your device.

Viewing the Applications Installed in Your Device

Touch the **Home Key** >  > **Settings** > **Applications** > **Manage applications**.

Your Reliance 3G Tab will show you the applications in a list.

Allowing the Installation of Non-Market Applications

1. Touch the **Home Key** >  > **Settings** > **Applications**.
2. Select the **Unknown sources** check box.

Installing an Application

You can install an application from the Android Market by selecting the item you want to download and touch **Install**.

You can also install a non-Marketing application if you have allowed the

installation of it. Make sure that you select an application developed for your device and processor type before installing it.

1. Touch the **Home Key** >  > **File Manager**, and open the folder where the application you want to install is.
2. Touch the application to start installation.
3. Read the installation instructions that come with the application and follow it to complete the setup.

Removing an Application

You can uninstall any application that you have downloaded and installed from Android Market.

1. Touch the **Downloaded** tab.
2. Touch the application you want to uninstall, then touch **Uninstall**.
3. When prompted, touch **OK** to remove the application from your device.
4. Choose the reason for removing the application, then touch **OK**.

Uninstalling Third-party Applications

1. Touch the **Home Key** >  > **Settings** > **Applications** > **Manage applications**.
2. Touch on the application you want to remove.
3. Touch **Uninstall**, and touch **OK** to confirm.

Speech Synthesis Settings

You can set the text-to-speech options by touching the **Home Key** >  > **Settings** > **Voice input & output** > **Text-to-speech settings**. Before you use this function, you should install the voice data.

Upgrading the Software from SD card

1. Name the upgrade zip file as **update.zip** and put it in the root directory of the SD card.
2. Go to **Settings** > **About device** > **System updates** > **Storage card updates**, press the **OK** button, the system will reboot and start the

upgrading automatically.

Other Applications

Alarming

1. Touch the **Home Key** >  > **Alarm**.
2. Touch the default alarm set to configure it or touch the **Menu Key** > **Add alarm** to create a new alarm.
3. Touch one alarm and select the **Turn on alarm** check box to enable alarm. You can edit the alarm items such as **Name**, **Time**, **Repeat**, **Snooze**, **Duration**, **Vibrate**, **Ringtone**, **Volume**, **Volume crescendo**, and **Delay**.

Note pad

Note pad is used to take down some memos.

Calculator

Press **Home Key** and touch  > **Calculator**.

TIPS: Press **Menu Key** and touch **Advanced panel** / **Basic panel** or swipe left or right to switch panels.

Task Manager

You can use **Task Manager** to view and stop running applications.

Stopwatch

1. Touch the **Home Key** >  > **Stopwatch**.
2. Touch **Start** to start timing.
3. Touch **Pause** to pause time and touch **Resume** to continue.
4. Touch **Reset** to reset the stopwatch.

News & Weather

You can check the weather and top news stories with **News & Weather**.

1. Touch the **Home Key** >  > **News & Weather**.

Maps

You use Maps to find your current location; to view real-time traffic conditions; to get detailed directions by foot, public transportation, bicycle, or car.

1. Touch the **Home Key** >  > **Maps**.
2. Touch the **Search Maps** search box on the top to find the location you need.
3. Touch  to find the place you need.

Places

Google Places helps you find all kinds of businesses near you.

1. Touch the **Home Key** >  > **Settings** > **Location & security** > **Use GPS satellites**.
2. Touch the **Home Key** >  > **Places**. Wait while you are being located.
Your location, when found, is displayed at the bottom of the screen.
3. Select a business category and the information of that type of business near you will be displayed.
You can also use the **Find places** search box on the top to find the business you need.
Note: Touch **Add** to add new business categories.
4. Touch a result you are interested in and check out the details and reviews about that place. You can also see the place on Google Maps, find out how to get there, or give that business a call.

Navigation

You can use **Google Navigation** to get turn-by-turn driving directions, both spoken and displayed on your screen.

1. Touch the **Home Key** >  > **Settings** > **Location & security** > **Use GPS satellites**.
2. Touch the **Home Key** >  > **Navigation**. Wait while you are being located.
Your location, when found, is displayed at the bottom of the screen.

Latitude

Google's Latitude service is a social tool for sharing your location information with selected friends.

If you join Google Latitude, you can view your friends' locations on your maps and share your location and other information with them.

1. Touch the **Home Key** >  > **Latitude**.
2. After signing in to your Google account, touch the **Menu Key** > **Join Latitude** to enable Latitude service.

Each time you launch Maps application, your location will be determined using GPS and your Latitude status will be updated. You can touch the

Menu Key > Latitude in Maps or  **> Latitude** to see your status as well as that of your selected friends.

In Latitude, touch the **Menu Key** to refresh the friends' status, see them on Maps, add new friends, or change privacy settings.

Specifications

EC DECLARATION OF CONFORMITY

C € 1588 !

It is hereby declared that following designated product:

Product Type: Tablet

Model No: V9A

Complies with the essential protection requirements of the Radio and Telecommunication Terminal Equipment Directive (EC Directive 1999/5/EC) and the Electromagnetic Compatibility Directive (2004/108/EC).

This declaration applies to all specimens manufactured identical to the samples submitted for testing/evaluation.

Assessment of compliance of the product with the requirements relating to the Radio and Telecommunication Terminal Equipment Directive (EC Directive 1999/5/EC) was performed by American TCB (Notified Body No.1588), based on the following standards:

Safety	EN 60950-1:2006/All:2009
EMC	EN 301 489-1 V1.8.1; EN301 489-3 V1.4.1;

	EN 301 489-7 V1.3.1; EN 301 489-17 V2.1.1; EN 301 489-24 V1.5.1; EN 55013:2001+A2:2006; EN 55020:2007;
Radio	EN 301 511 V9.0.2; EN 301 908-1 V4.2.1; EN 301 908-2 V4.2.1; EN 300 328 V1.7.1; EN300 440-1 V1.6.1; EN300 440-2 V1.4.1;
Health	EN 50360:2001; EN 62209-2:2010; EN 50332-1:2000; EN 50332-2:2003
