## Hardware installation guide

1) Insert the SIM/USIM card and the microSD card into the USB modem.

2) Connect the USB modem to your PC.

Software installation guide

After the hardware installation, the OS automatically detects and recognizes new hardware and starts the installation wizard. On different operating systems, the installation procedures may differ. Follow the system prompts to complete the software installation.

Know your modem status

You can know the modem status through the indictor. Please refer the table below.

LED Indicator	USB Modem Working Status
Red	Power on. Not registered on the 2G or 3G network
Green solid	Registered on the 2G or 3G network
Green blinking	Active connection via 2G or 3G network
