microSD capability	Support up to 32GB microSD card

Getting to know your device

The following figure shows the appearance of the Mobily Connect. It is only for your reference. The actual product may be different.

1. Indicator
2. Front Cover
3. USB Connector
4. SIM/USIM card slot
5. microSD card slot

Set up your modem

1. Put finger on the bottom finger grip, and then lift the front cover of the modem to release and remove.

Notes:

Do not open the front cover rudely so as to avoid the damage of the front cover.

2. Insert the SIM/USIM card and microSD card.

Insert the SIM/USIM card with the metal contact area facing downwards into the slot, and then insert the microSD card, shown as the following picture.

Notes:

The modem only supports microSD card.

3. Close the front cover as shown in the following picture.

4. Connect the Modem to your laptop or desktop PC.

Plug the USB connector into your computer's USB port and make sure that it is tightly inserted.

The OS will automatically detect and recognize new hardware and start the installation wizard.

Software installation/remove guide

For Windows

Your system will start the software setup process automatically when you connect Mobily Connect modem to your computer correctly.

Notes: If the system does not launch installation automatically, you can run the installation program in path of

My Computer > Mobily Connect

The following installation steps will show you how to install the software.

1. Recommend you to exit other programs, and then click “Next”.

2. Read the license agreement carefully. If you agree, choose “I accept the terms of the license agreement”, and then click “Next”.

3. Select the folder which you want to install the software by pressing “Change”, and then click “Next”.

4. Select the language, and then click “Next”.

5. The system shows the installation progress, wait a minute and then click “Finish” to complete the installation.

For Mac OS

The system will automatically display a Mobily Connect icon on the desktop, when you connect Mobily Connect to your computer correctly. Double click the installation software

package in the Mobily Connect.

The following installation steps will show you how to install the software.

Click “Continue” on the welcome page.

Select the folder which you want to install the software by pressing “Change Install Location...”, and then click “Install”.

Please enter user name and password to be authenticated, and click “OK” to install.

The system shows the installation progress, wait a minute and then click “Close” to complete the installation.

Hardware removal from your system

Please close the management software, and then remove your modem safely.

Safety Warning

To the owner

- The use of electronic transmitting devices is forbidden in aircraft, at petrol stations and in hospitals. Please observe and obey all warning signs and switch off your modem in these conditions.
- Operating USB modem may interfere with medical devices like hearing aids and pacemakers.
- Be aware of warning signs in places such as oil refineries or chemical factories where there are explosive gases or explosive products being processed.

- Store the USB modem out of the reach of children. The USB modem may cause injury if used as a toy or may be damaged by rough play or moisture.

Using your USB Modem

- Only use original accessories supplied by the manufacturer. Using unauthorized accessories may invalidate your warranty.
- Avoid using the USB modem near or inside metallic structures or establishments that can emit electromagnetic waves.
- The USB Modem is not waterproof, please keep it dry and store it in a cool place out of direct sunlight.
- Handle the USB modem with care. Don't drop, bend, knock or treat it harshly to avoid damage to the unit.
- There are no user serviceable parts. Dismantling the unit will invalidate the warranty.
- Operating temperature range of -10°C ~ $+60^{\circ}\text{C}$ and humidity 5%~95% are recommended.
