	Settings	Set the configuration for the modem.
	My Account	Check your balance, recharge and use other USSD functions.
	Help	Show the help information.

Warning and Notice

To the owner

○ Some electronic devices are susceptible to electromagnetic interference sent by modem if inadequately shielded, such as the electronic system of vehicles. Please consult the manufacturer of the device before using the modem if necessary.
○ Operating of laptop and desktop PCs and the modem may interfere with medical devices like hearing aids and pacemakers. Please always keep them more than 20 centimeters away from such medical devices when they are turned on. Turn the modem off if necessary. Consult a physician or the manufacturer of the medical device before using the modem.
○ Be aware of the usage limitation when using a modem at places such as oil warehouses or chemical factories, where there are explosive gases or explosive products being processed. Turn off your modem if required.

○ The use of electronic transmitting devices is forbidden in aircrafts, at petrol stations and in hospitals. Please observe and obey all warning signs and switch off your modem in these conditions.
○ Do not touch the inner antenna area if not necessary. Otherwise it will affect your modem's performance.
○ Store the modem out of the reach of little children. The modem may cause injury if used as a toy.
○ Do not touch the metallic parts of the modem so as to avoid a burn, when the modem is working.

Using your USB Modem

○ Please use original accessories or accessories that are authorized. Using any unauthorized accessories may affect your modem's performance, and violate related national regulations about telecom terminals.
○ Avoid using the modem near or inside metallic structures or establishments that can emit electromagnetic waves. Otherwise it may influence signal reception.
○ The modem is not waterproof. Please keep it dry and store in a shady and cool place.

○ Do not use the modem immediately after a sudden temperature change. In such case, it will produce dew inside and outside the modem, so don't use it until it becomes dry.
○ Handle the modem carefully. Do not drop, bend or strike it. Otherwise the modem will be damaged.
○ No dismantling by non-professionals and only qualified technicians can undertake repair work.
○ Operating temperature range of -10°C ~ +55°C and humidity range of 5% ~ 95% are recommended.
