USB Modem

Quick Guide

MF190S

sudatel سوداتل
A Telecom Group

Introduction

The USB modem is a multi-mode USB modem, working in HSUPA/HSDPA/WCDMA/EDGE/GPRS/GSM networks. With USB interface connecting to a laptop or a desktop PC, it integrates the functionality of a modem and a mobile phone (SMS), and combines mobile communication with Internet perfectly. It supports data and SMS services through the mobile phone network, enabling you to communicate anytime and anywhere.

Specification

The following table shows the specification of your device.

Interface Type	USB 2.0 HIGH SPEED
Systems supported	Supports most types of laptop and desktop PC.
Operating systems supported	Windows XP, Vista, Windows 7 MAC 10.4, 10.5, 10.6
Functions	SMS service, Data service, Applications management, support microSD card, etc.
Network Standards	HSUPA/HSDPA/WCDMA/EDGE/GPRS/GSM
Transmission speed (Max)	HSUPA: 5.76Mbps UL HSDPA: 7.2Mbps DL

Temperature	Storage: -40°C ~ +80°C Operation:-10°C ~ +60°C
Dimension	76mm×26mm×11mm(without cap)
Weight	About 21g
microSD capability	Support up to 32GB microSD card

Notes: microSD **micro SD** is a trademark of SD Card Association.

Getting to know your device

The following figure shows the appearance of the MF190S. It is only for your reference. The actual product may be different.

1. Indicator
2. Front Cover
3. Modem Cap
4. SIM/USIM card slot
5. microSD card slot
6. USB Connector

Hardware Installation

1. Put finger on the bottom finger grip, and then lift the front cover of the modem to release and remove.

Notes: Do not open the front cover rudely so as to avoid the damage of the front cover.

2. Insert the SIM/USIM card into the SIM/USIM card slot.

Insert the SIM/USIM card with the metal contact area facing downwards into the slot, and then push SIM/USIM card as far as possible, shown as the following picture.

3. Insert the microSD card into the microSD card slot.
Notes: This modem only supports microSD card.
Insert your microSD card into the microSD card slot, shown as the following picture.

4. Put the front cover of the modem flatly upon the body of modem. Direct the front cover towards the locking catches on the sides of the modem and push the front cover of the modem to lock the front cover into its place.

5. Connect the Modem to your laptop or desktop PC.

> Plug the USB connector into your computer's USB port and make sure that it is tightly inserted.

> The OS automatically detects and recognizes new hardware and starts the installation wizard.

Software Installation Guide

On different operating systems, the installation procedures may be difference. Follow the system prompts during operation.

For Windows OS

Your system will start the software setup process automatically when you connect the modem to your computer correctly. Follow the system prompts to complete the software installation.

Notes: If the system does not launch installation automatically, you can run the installation program in path of **My Computer**.

For Mac OS

The system will automatically display a CD-ROM icon on the desktop, when you connect the modem to your computer correctly. Double click the installation software package in the CD-ROM, and follow the system prompts to complete the software installation.

Safe removal from your system

Please close the application software, and then you can pull out the USB Modem safely.

How to use your modem

Various icons are presented to enable quick operation of the following functions:

⊙	Connect	Connect to the Internet.
✉	SMS	Click **New** button, enter recipient's number and content, and then click **Send** to send new message.
👤	Phonebook	Click **New** to fill in a new contact person and contact details.

⚙	Settings	Set the configuration for the USB modem.
🔁	Data records	Show the connection information.

Warning and Notice
To the owner

- Some electronic devices are susceptible to electromagnetic interference sent by modem if inadequately shielded, such as the electronic system of vehicles. Please consult the manufacturer of the device before using the modem if necessary.
- Operating of laptop and desktop PCs and the modem may interfere with medical devices like hearing aids and pacemakers. Please always keep them more than 20 centimeters away from such medical devices when they are turned on. Turn the modem off if necessary. Consult a physician or the manufacturer of the medical device before using the modem.
- Be aware of the usage limitation when using a modem at places such as oil warehouses or chemical factories, where there are explosive gases or explosive products being processed. Turn off your modem if required.

- The use of electronic transmitting devices is forbidden in aircrafts, at petrol stations and in hospitals. Please observe and obey all warning signs and switch off your modem in these conditions.
- Do not touch the inner antenna area if not necessary. Otherwise it will affect your modem's performance.
- Store the modem out of the reach of little children. The modem may cause injury if used as a toy.
- Do not touch the metallic parts of the modem so as to avoid a burn, when the modem is working.

Using your USB Modem

- Please use original accessories or accessories that are authorized. Using any unauthorized accessories may affect your modem's performance, and violate related national regulations about telecom terminals.
- Avoid using the modem near or inside metallic structures or establishments that can emit electromagnetic waves. Otherwise it may influence signal reception.
- The modem is not waterproof. Please keep it dry and store in a shady and cool place.
- Do not use the modem immediately after a sudden temperature change. In such case, it will produce dew inside and outside the modem, so don't use it until it becomes dry.
- Handle the modem carefully. Do not drop, bend or strike it. Otherwise the modem will be damaged.
- No dismantling by non-professionals and only qualified technicians can undertake repair work.
- Operating temperature range of -10°C ~ +60°C and humidity range of 5% ~ 95% are recommended.
