Introduction

The ZTE USB modem is a multi-mode USB modem, working in HSPA+/HSUPA/HSDPA/WCDMA/EDGE/GPRS/GSM networks. With USB interface connecting to a laptop or a desktop PC, it integrates the functionality of a modem and a mobile phone (SMS), and combines mobile communication with Internet perfectly. It supports data and SMS services through the mobile phone network, enabling you to communicate anytime and anywhere.

Specification

The following table shows the specification of your device.

Interface Type	USB 2.0 HIGH SPEED
Systems supported	Supports most types of laptop and desktop PC.
Operating systems supported	Windows XP, Vista, Windows 7　　MAC 10.4 or later
Functions	SMS service, Data service, Applications management, support microSD card, etc.
Network Standards	HSPA+/HSUPA/HSDPA/WCDMA/EDGE/GPRS/GSM
Transmission speed (Max)	HSUPA: 5.76Mbps UL
	HSPA+: 21.6Mbps DL
Temperature	Storage: -40°C ~ +80°C
	Operation:-10°C ~ +55°C
Dimension	87.9mm×27.2mm×13.4mm
Weight	About 26g
microSD capability	Support up to 32GB microSD card

Notes: microSD is a trademark of SD Card Association.

Getting to know your device

The following figure shows the appearance of the MF192. It is only for your reference. The actual product may be different.

1. Indicator
2. Modem Cap
3. External antenna port
4. microSD card slot
5. SIM/USIM card slot
6. USB connector

Hardware Installation

1. Insert the SIM/USIM card into the USB modem

To install SIM/USIM card

i. Take down the modem cap, and then the USB connector is visible.

ii. Pull the plastic socket above the USB connector out.

Notes:

Do not pull the socket rudely for the socket is fixed with the modem. Otherwise the socket will get damaged.

iii. Insert the SIM/USIM card into the socket. Make sure that metal contact area is facing to the modem.

iv. Insert the plastic socket into the modem. You can hear a click when the SIM/USIM card locks in place.

To Remove the SIM/USIM card from the USB modem

i. Take down the modem cap.

ii. Pull the plastic socket gently, and you can hear a click when the SIM/USIM card gets unlocked.

iii. Take off the SIM/USIM card.

2. Install the microSD card into the USB modem

Install microSD card in the USB modem, if you want to use it.

CE 1588

i. Open the cover of the microSD card slot.

Notes: Do not pull the cover rudely for it is connected with the modem.

ii. Insert your microSD card into the microSD card slot, shown as the following picture.

iii. Close the cover of microSD card slot and then you can use the microSD card freely.

3. Connect the USB modem to your PC

- Plug the USB modem into your computer's USB port and make sure that it is tightly inserted.
- The OS automatically detects and recognizes new hardware and starts the installation wizard.

Software Installation Guide

On different operating systems, the installation procedures may be difference. Follow the system prompts during operation.

For Windows OS

Your system will start the software setup process automatically when you connect the modem to your computer correctly. Follow the system prompts to complete the software installation.

Notes: If the system does not launch installation automatically, you can run the installation program in path of **My Computer > AIRTEL MODEM**.

For Mac OS

The system will automatically display a CD-ROM icon on the desktop, when you connect the modem to your computer correctly. Double click the installation software package in the CD-ROM, and follow the system prompts to complete the software installation.

Safe removal from your system

Please close the application software, and then you can pull out the USB Modem safely.

How to use your modem

Various icons are presented to enable quick operation of the following functions:

	Connection	Connect to the Internet.
	Statistics	Show data statistics.
	Text	Click the **New Message** button, enter recipient's number and content, and then click **Send** to send new message.
	Phonebook	Click **New** > **New Contact** to add a new contact.
	Airtel Menu	Supplemental Airtel Menu services. Please contact with your service provider for more information.
	Settings	Set the configuration for the USB modem.
	Help	Show the help document.

Warning and Notice

To the owner

- Some electronic devices are susceptible to electromagnetic interference sent by modem if inadequately shielded, such as the electronic system of vehicles. Please consult the manufacturer of the device before using the modem if necessary.
- Operating of laptop and desktop PCs and the modem may interfere with medical devices like hearing aids and pacemakers. Please always keep them more than 20 centimeters away from such medical devices when they are turned on. Turn the modem off if necessary. Consult a physician or the manufacturer of the medical device before using the modem.
- Be aware of the usage limitation when using a modem at places such as oil warehouses or chemical factories, where there are explosive gases or explosive products being processed. Turn off your modem if required.
- The use of electronic transmitting devices is forbidden in aircrafts, at petrol stations and in hospitals. Please observe and obey all warning signs and switch off your modem in these conditions.
- Do not touch the inner antenna area if not necessary. Otherwise it will affect your modem's performance.
- Store the modem out of the reach of little children. The modem may cause injury if used as a toy.
- Do not touch the metallic parts of the modem so as to avoid a burn, when the modem is working.

Using your USB Modem

- Please use original accessories or accessories that are authorized. Using any unauthorized accessories may affect your modem's performance, and violate related national regulations about telecom terminals.
- Avoid using the modem near or inside metallic structures or establishments that can emit electromagnetic waves. Otherwise it may influence signal reception.
- The modem is not waterproof. Please keep it dry and store in a shady and cool place.
- Do not use the modem immediately after a sudden temperature change. In such case, it will produce dew inside and outside the modem, so don't use it until it becomes dry.
- Handle the modem carefully. Do not drop, bend or strike it. Otherwise the modem will be damaged.
- No dismantling by non-professionals and only qualified technicians can undertake repair work.
- Operating temperature range of -10°C ~ +55°C and humidity range of 5% ~ 95% are recommended.

Limited Warranty

i. This warranty does not apply to defects or errors in the Product caused by:
ii. Reasonable abrasion.
iii. End User's failure to follow ZTE's installation, operation or maintenance instructions or procedures.
iii. End User's mishandling, misuse, negligence, or improper installation, disassembly, storage, servicing or operation of the Product.
iv. Modifications or repairs not made by ZTE or a ZTE-certified individual.
v. Power failures, surges, fire, flood, accidents, actions of third parties or other events outside ZTE's reasonable control.
vi. Usage of third-party products, or usage in conjunction with third-party products provided that such defects are due to the combined usage.
vii. Any other cause beyond the range of normal usage intended for the Product.

End User shall have no right to reject or return the Product, or receive a refund for the Product from ZTE under the above-mentioned situations.

- This warranty is End User's sole remedy and ZTE's sole liability for defective or nonconforming items, and is in lieu of all other warranties, expressed, implied or statutory, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, unless otherwise required under the mandatory provisions of the law.

Limitation of Liability

ZTE shall not be liable for any loss of profits or indirect, special, incidental or consequential damages resulting from or arising out of or in connection with using of this product, whether or not ZTE had been advised, knew or should have known of the possibility of such damages, including, but not limited to lost profits, interruption of business, cost of capital, cost of substitute facilities or product, or any downtime cost.
