

SD Upgrade

Upgrade step:

1. Copy “**update.zip**” to root directory in SD card, then switch off the handset;

Notes:

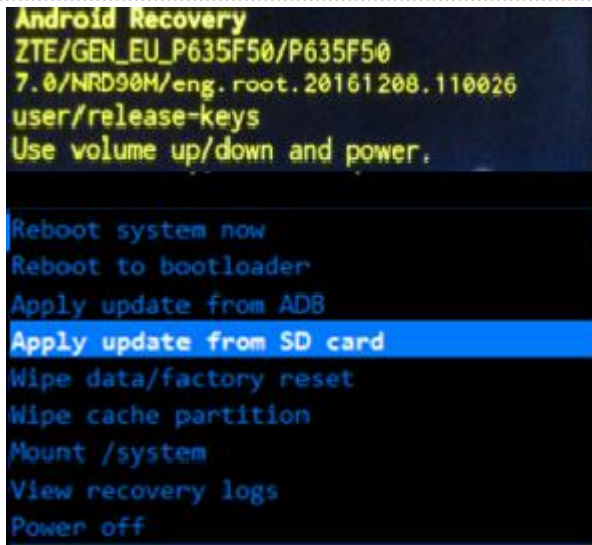

■ The user’s data in the handset will be deleted after SD upgrade, please backup it in advance;

■ Please ensure the battery power is more over 50% during the update step.

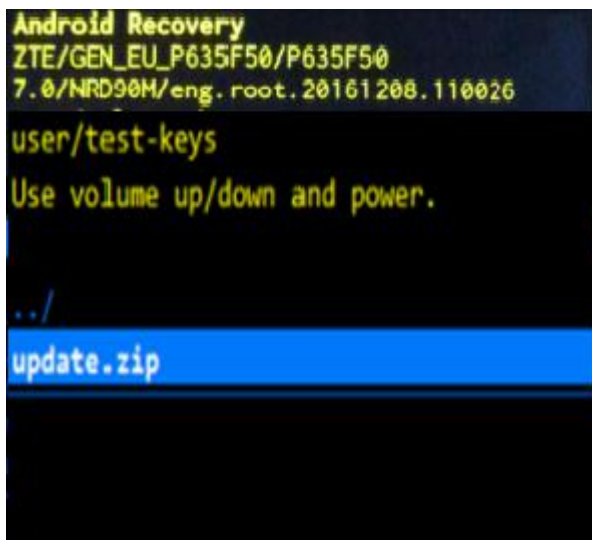

2. Enter recovery mode by pressing **Volume Up + Power** key at the same time , and it will show the recovery menu;

3. Click **Volume Down** key to choose item “**Apply update from SD card**”, then click **Power** key to confirm;

4. Select the **update.zip** file, then click **Power** key to confirm;

5. Wait until update is over;

```
-- Install /sdcard/update.zip ...  
Opening update package...  
Installing update...
```

6. Choose item “reboot system now”, click **Power** key to confirm
